Estimate 400 Killed In Explosion At Cadiz

Desperate Trio From Kingston Reported Seen

OTTAWA (CP) — Three long-term convicts who escaped Monday from the Kingston Penitentiary were reported today to have been seen and identified near Shawville, Que., about 50 miles northwest of the capital.

Squad cars loaded with armed police from the police departments of Ottawa and neighboring Hull, Que., and suburban areas immediately were rushed to the area. The civil forces were joined by Quebec Provincial Police.

Reports reaching here said the three men were driving in a motor car stolen near the prison Monday.

KINGSTON, Ont. (CP) — Ontario police alerted authorities in Quebec, adjacent United States points and the R.C.M.P. today as they pressed one of the greatest manhunts in provincial crime history for three long-term prisoners still at large after a daring, wall-scaling escape from the Kingston penitentiary.

A high-ranking police official said Quebec authorities had been called on because one of the trio —Ulysses Lauzon of Windsor, Ont.—was known to have a "large sum of money" hidden somewhere in Quebec, part of the loot from a robbery.

With 23-year-old Lauzon who was serving 35 years for armed robbery, was Donald (Mickey) McDonald, 40, Toronto, serving 15 years for hijacking a liquor truck in Toronto and kidnapping the driver, and Nicholas Minnlli of Ottawa, who was serving 17 years for armed robbery.

Authorities believe the trio had outside help to make good their escape after leaving rolled bedclothes to represent their sleeping forms in their cots and delay discovery of the escape as long as possible.

Meanwhile, it was recalled that when Lauzon was sentenced for bank robbery by Magistrate James B. Garvin at Napanee, Ont., in 1945, he made a threat to "get" the magistrate if he ever got loose. Monday night in Kingston, where the magistrate is now living, he said he wasn't worried about the threat.

The three were believed driving in a motor car stolen from Kingston early Monday, which had only five gallons of gasoline in its tank at the time. Police broadcasts gave the license number as 73-T-21.

Royal Canadian Mounted Police, Ontario and Quebec Provincial Police, and municipal police of scores of municipalities along with police across the United States border were alike on the search for the wanted trio.

SAVED SASH CORD

Warden M. Allen said the three sawed through the ¾-inch bars of their cells with hacksaws Sunday night, made their way out of the cell block and scaled the outer wall with a rope of sash cord. All three had been working in the mailbag factory of the prison and they had evidently saved up sections of sash cord and knotted them together to form the escape rope.

QUESTIONS TO ANSWER

As for the actual escape, authorities were investigating numerous angles, including where the escapees obtained the tools with which they cut the bars; how they could cut through bars which are supposed to have a chrome steel centre impervious to saws; how their absence could not be discovered until 8 a.m., when it was first reported.

How they could pull themselves up to the top of the main wall from the inside, then climb down again on the outside, was another matter for investigation.

The stolen car believed used in the escape was parked near the penitentiary. It was owned by one of the guards. Officials thought confederates may have stolen this car and placed it near the wall for the escaping trio.

Will Race With The Best Of Them

Following a test flight, Jane Page, 25, of Wilmette, Ill., climbs out of the P-38 she is preparing to race in the $10,000 Bendix Air Race Aug. 30. She will compete in the Los Angeles-Cleveland air derby with such male fliers as Bill Odom.

C.N., C.P.R. Receptive To P.G.E. Plan, Carson States

SEATTLE (AP) — Canada's trans-continental railroads now appear highly receptive toward joint acquisition of the Pacific Great Eastern Railway and its extension into the Peace River area, Hon. E. C Carson, British Columbia Minister of Public Works, said at the Pacific Northwest Trade Association meeting here.

Mr. Carson said the railway, owned by the British Columbia Government, is an ideal instrument to protect Alaska, and predicted its eventual extension to the territory.

The line runs from Squamish on Howe Sound, 40 miles north of Vancouver, 347 miles to Quesnel, B.C.

The minister was one of several speakers who touched on Alaska Monday, the first day of the association's two-day meeting.

George Sundborg, former general manager of the Alaska Development Board, predicted Alaska will shortly be capable of producing 5,000 tons of newsprint paper weekly at prices competitive in the eastern Canadian and U.S. market.

He said also that Alaskans want Canadian ships given the right to haul freight to and from and between Alaskan ports, a procedure now forbidden by federal law.

In other first-day actions the association urged the Canadian government to establish a consulate in the Pacific Northwest and endorsed plans for an international ceremony at the Peace Arch at Blaine next Feb. 26.

Gas-Filled Mine At Bridge River Yields 3 Bodies

PIONEER, B.C. (CP)—The bodies of three miners, trapped in the explosion-blasted Pacific Eastern Gold Mine, have been located in a gas-filled tunnel where they died as deadly methane gas swept the workings at the 500-foot level.

The men, Vernon S. Wright, 40, of Vancouver; Alexander G. Geils, 24, Drummonville, Que., and Norman H. Ryan, 29, Halifax, were trapped in a 4,000-foot-long tunnel shortly after they had entered the mine early Monday.

The bodies, face down in a pool of water, were located late Monday night by a special mine rescue squad flown from Nanaimo, but no attempt will be made to bring them to the surface until later today.

Frustrated in three attempts to remove the bodies, the oxygen-equipped rescuers stumbled from the mine early today exhausted and ill from the poisonous gases.

Richard Nichol, leader of the rescue squad, said he was unable to determine whether the men were killed by the methane gas explosion or died from monoxide which swept the mine after the blast had consumed the oxygen.

VICTORIAN ESCAPED

The men were removing diamond drilling equipment when the explosion rocked the mine, sending clouds of smoke up the shaft from the 500-foot level. They were the only men in the mine.

Three other miners had started to enter the shaft when there was a "sudden blast of air."

"We were lucky," said Hal McKenzie of Victoria, a member of the early shift.

The rescue squad toiled for six hours through ankle-deep water before finding the bodies.

A canary, carried by the lead man, died at the 3,300-foot mark in the long tunnel cutting deep into Mt. Ferguson, under Cadwallader Creek, two miles south of here.

"The bird may have died of dampness and cold, but it may have been killed by gas," said Nichol.

The bodies of the blast victims lie on the tunnel tracks, close to the ore face.

Gas-clearing fans worked throughout the mine today

An investigation of the blast has been started by H. C. Hughes, of Victoria, senior inspector of the Department of Mines.

The mine is located in the Bridge River district about 120 miles north of Vancouver.

Damage $10,000,000 As Torpedo Factory Flattens Wide Area

CADIZ, Spain (AP)—More than 400 persons were estimated by newspapermen here today to have been killed when a Spanish naval torpedo plant exploded Monday night, wrecking a residential section, an orphanage, a hospital and a factory.

Earlier estimates had placed the injured at several thousand and the property damage at $10,000,000.

Official censorship was imposed near the scene of the explosion on the narrow Cadiz peninsula, two miles from the centre of the ancient city of 80,000.

A mine factory and a warehouse went up with the torpedo plant. The ruin was so complete that no clue to the cause of the explosion was left.

Resulting fires destroyed the Echevarrieta and Larringaga shipyards.

Buildings were damaged and windows shattered throughout the old port city, left without water, electricity and railroad or highway communications.

Partial Evacuation May Result

MADRID (CP) — Evacuation of part of the ancient port of Cadiz was reported under consideration today as a result of Monday night's disastrous explosion.

Censorship kept secret the number of casualties and the extent of the ruins, but the Spanish cabinet described the damage as grave and the Spanish news agency Cifra said it was of "disaster proportions," with "numerous victims."

Water supplies failed. Electricity was disrupted. Rail and road communications to the city, situated on a peninsula shaped like a frying pan, also snapped.

The torpedo factory was 1½ miles from central Cadiz. The blast caused greatest damage in the lightly constructed houses of the popular summer colony of San Severiano.

Blast-set fires appeared under control today. Army engineers and troops, who arrived during the night, succeeded in isolating several large munitions dumps from which more explosions had been expected.

SEARCH FOR VICTIMS

Thousands of workmen are combing ruins for victims believed entombed. The worst damage was done along San Severiano's avenue Lopez Pinto.

A maternity home was wrecked, with all the patients and nuns believed killed. An old people's home also was destroyed.

Doors of the cathedral were blown down and some of the altars damaged, while many persons had their clothes ripped off by the blast.

With light and water supplies cut, authorities have forbidden all but doctors, nurses, fire fighters and rescue workers to enter the city.

An unexplained fire touched off the explosion in the torpedo factory, part of the naval arsenal.

The population of the San Severiano district, which received the full force of the explosion, was about equally divided between summer vacation transients and workers.

PROMINENT FOLK HURT

Prominent persons who live in chalets along the peninsula coast were believed among the injured.

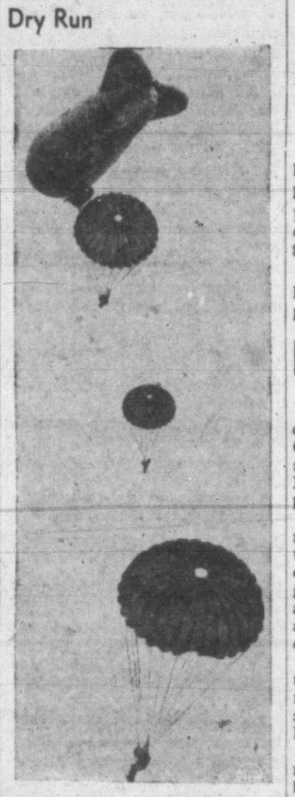
Eduardo Callejo de la Cuesta, President of the Council of State, was reported injured slightly.

In the shipyards, the new naval training ship, Juan de Austria, almost ready for launching, was destroyed by fire. Many smaller vessels also burned.

Cadiz was isolated by the blast, which was so heavy that it cracked windows in Jerz de la Frontera, 15 miles away. The only information came from radio broadcasts by a fishing boat which could be heard by a station in Jerez.

A special broadcast by the Jerez radio station said Cadiz authorities had appealed for all fire-fighting equipment in towns within a 125-mile radius of Cadiz

Dry Run



Coached all the way down by an instructor using a loudspeaker, these British officers parachute for the first time in a practice jump from an old barrage balloon 700 feet in the air at Upper Heyford, England.

Dog Causes Minor Traffic Accident

Coal scattered over the intersection of Discovery and Government streets caused a traffic jam, a minor accident and got one car driver in trouble, this morning.

The trouble-maker was a dog.

Charles P. Potts, driving his car south on Government Street, stopped his car suddenly to avoid hitting a dog. Following immediately behind was Brook Royal, who had to apply his emergency brakes in order to avoid hitting Potts. A coal truck driven by E. Alexander, swerved, which caused the load of coal to scatter over the intersection. Lastly, Albert C. Thomas, driving in the same direction, crashed into the rear of the coal truck.

No one was injured, but the Thomas car was damaged.

Charles Potts, the first driver, was summoned by police for "failing to remain at the scene of the accident."

3 More Polio Cases

VANCOUVER (CP) Three of six suspects were today adjudged poliomyelitis cases, sending the Greater Vancouver polio total to 109 this year, the city health department announced. Total for British Columbia now stands at 145, with five deaths.

Soviets Say Indonesian Action By U.S. Scorns U.N. Authority

LAKE SUCCESS (AP)—Russia demanded today that the Security Council set up a commission to investigate and arbitrate the Dutch-Indonesian conflict and sharply attacked the United States for a "dangerous" attempt to "by-pass the United Nations."

Soviet delegate Andrei A. Gromyko stated the Russian position in an emergency council meeting summoned at his request.

"LACK OF RESPECT"

He charged the United States was attempting to "force its good offices on Indonesia, showing disregard of the Indonesian people and lack of respect for the Security Council."

"This persistent offering of good offices by the United States becomes even more difficult to understand after the Indonesian government had asked the council to create its own commission for arbitration and investigation," Gromyko declared.

He said the American attempts could be viewed only "as an attempt to by-pass the United Nations" and that this was both "undesirable and dangerous."

Previously Gromyko had said the United States was putting "diplomatic pressure" on the Indonesians.

He also had said the council was "moving too slowly" in view of continued hostilities between the Dutch and Indonesians.

DUTCH 'RETALIATE'

BATAVIA, Java (AP) — The Netherlands army announced today that "drastic retaliatory measures" had been taken against Indonesian forces which, it said, had tried to push forward near Ealatiga, about 40 miles north of the Republican capital of Jogjakarta.

Severe losses were inflicted on the attacking Indonesians, who fled leaving dead and wounded behind them, the Dutch declared.

The Dutch themselves acknowledged casualties of seven killed and 17 wounded in operations Monday.

An official Dutch spokesman said a group of Netherlands East Indies officials had recommended privately to The Hague government that the Dutch occupy Jogjakarta in order to ease an "intolerable situation" caused by non-observance of the United Nations' cease-fire order.

Eighteen separate clashes in Java, Sumatra and Madoera were reported in today's Dutch communique.

Ambassador To Russia

With formal opening of an Indian embassy at Moscow, Russia, Mrs. Vijaya Lakshmi Pandit of India became the first and only woman ambassador to Moscow.

Fleet Surrenders

ASUNCION, Paraguay (AP)—The Paraguayan rebel fleet has surrendered unconditionally, it was announced officially today.

LATEST

Call For Nurses

WINNIPEG (CP)—A call for voluntary workers to augment staffs at the Children's and Winnipeg Municipal Hospitals was issued today by the emergency committee on nursing of poliomyelitis victims as Manitoba's total cases reached 226 to date.

Shipmen Adamant

MONTREAL (CP)—A spokesman for Canada Steamships Lines, on the eve of the departure of representatives for Ottawa to discuss a dispute with the Canadian Seamen's Union, said today the company would not alter its stand against Communists.

No Coal Pinch

OTTAWA (CP) — No indications of any serious effect on Canada's coal supply have developed from the five-day partial embargo on coal movements from the United States, federal officials said today. The embargo was ordered lifted in Washington today.

Nitinat For Sale

VANCOUVER (CP) — The fisheries patrol cruiser Nitinat, one of the B.C. coast's best-known fisheries patrol "policemen," will be turned over to War Assets Corporation for sale, it was learned today.

Her work is to be taken over by the 113-foot, powerful sister ships Macdonald and Laurier—bigger and faster vessels — and F.P.C. Kitimat. The Nitinat, built in 1939 at a cost of about $100,000, is expected to be converted into a fish packer by private interests.

Embargo On U.S. Railway Cars To Canada Lifted

WASHINGTON (CP)—Arthur Gass, assistant to Col. J. Monroe Johnson, director of the Office of Defence Transportation, announced today that the American Association of Railroads has been ordered to lift the embargo on United States coal shipments to Canada over lines of the Canadian National Railways.

Gass said the adverse balance of U.S. freight cars held in Canada, as against Canadian cars held in the United States, had dropped to 8,654 as of Monday and that it was estimated it would fall today below the 8,000 level set as the maximum balance allowable.

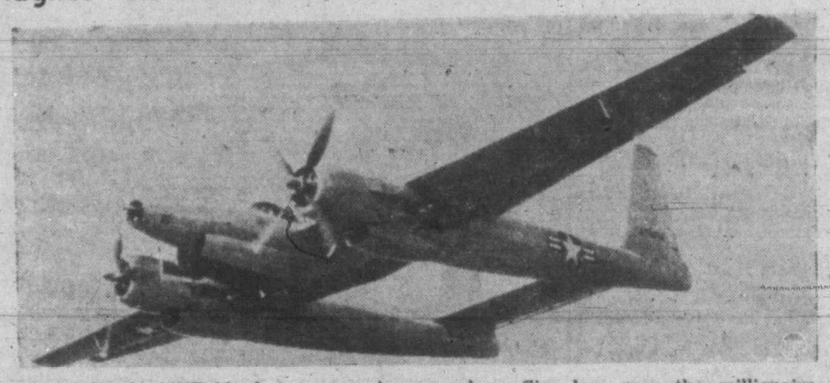
The embargo, subject of a Canadian diplomatic note of protest, was imposed last Wednesday when O.D.T. said cars were not being returned to U.S. lines by the C.N.R. with sufficient speed.

MacArthur To Quit, Canberra Reports

CANBERRA (Reuter)—Reuters news agency today learned on the highest authority here that Gen. MacArthur will relinquish his post as Supreme Allied Commander in Japan and return to the United States at the conclusion of the Japanese peace treaty.

A high source suggested a different form of Allied control in Japan, almost certainly of a civil nature, will replace the present form of occupation. Foreign Minister Evatt of Australia has expressed confidence the treaty will be concluded early next year.

Hughes Controversial Photo Recon Plane Tested



Howard Hughes' XF-11 photo reconnaissance plane flies low over the millionaire plane-maker's private Culver City, Calif., airport with Hughes himself at the controls. Senator Harry P. Cain (Rep.-Wash.), member of a subcommittee investigating Hughes' war contracts, witnessed the test, the first since Hughes' visit to U.S. Senate last week.

Britain Seems Likely To Succeed In Easing Terms Of Dollar Loan

WASHINGTON (AP)—Britain appeared likely today to win concessions at the Anglo-American "dollar crisis" conference here, permitting a temporary boost in buying from the Dominions at the expense of trade with the United States.

American officials said privately this would fall far short of a panacea for Britain's economic ills, but it is one remedy which may be available without waiting for Congress to amend the $3,750,000,000 British loan agreement.

That agreement mars Britain from "discriminating" against United States goods unless she can get better prices and quality on the same items elsewhere.

A relaxation would permit her to use her own pounds more extensively in sterling countries and thereby conserve some of the dollars whose fast expenditure threatens her economic stability and that of Europe as well.

A lesser concession along the same lines, applying to the non-self-governing colonies, has already been granted without congressional approval. A major point, however, is that the Dominions and colonies lack many of the foodstuffs and materials needed by the home country.

Crerar Impressed By MacArthur's Job

TOKYO (CP)—Gen. H. D. G. Crerar, head of Canada's Far East trade mission now concluding a two-week tour of Japan, said today he was most impressed with Gen. MacArthur's blueprint for democracy," but did not know how far it had sunk "to the roots."

Gen. Crerar said a wonderful job had been done in Japan by occupation authorities and the history of the Japanese revealed they were quick to take up new ideas.

Changes impressing him most in Japan were in the Japanese police force and the status of women. There had been a great fundamental change in the social structure as far as women were concerned.

Snoring Excites Radio Operators

Victoria amateur stations buzzed with excitement last night as deep gurgling sounds issued from their receiving sets.

Police received a call from R. L. Smith, 1072 Colville Road, who reported hearing from his receiver someone calling for help on the 75-meter band.

Said Mr. Smith: "Sounds as if he is choking, but he doesn't call his letters for location."

Alf. Joyce, city radio repairer and who also operates a radio set, was asked by police for his opinion. Joyce found scores of Canadian and American amateur radio enthusiasts listening to the same sounds.

Hours later he reported his conclusions: "Sounds like an operator has fallen asleep near his microphone and is snoring."

To Reopen Brentwood At Shawnigan Lake School

E. A. M. Williams, chairman of the board of governors, has announced that Brentwood College will reopen on Sept. 12 at Shawnigan Lake School pending a decision as to the rebuilding of the college which was reduced to rubble by fire Saturday.

Copeman House, a separate building of Shawnigan Lake School, was offered by C. W. Lonsdale, headmaster, as temporary accommodation for Brentwood College students. The offer was accepted and the college will operate under its own staff in the new quarters.

W. K. Molson, Brentwood headmaster, has sent telegrams to parents notifying them that the school will open as usual this fall and requesting them to confirm that their sons will enroll as planned.

"Successful completion of plans cannot be made without knowledge of enrollment," the message read. "Please confirm attendance of your boy under these conditions."

In accepting the offer of Shawnigan Lake School, the board of governors expressed their thanks to the many old college boys who had offered accommodation for the students, as well as assistance.

RECORDS WERE SAVED

As college records were saved from the fire, the board felt it would have no difficulty in reorganizing the school this fall.

The board made no decision with regard to rebuilding the school, but many Brentwood College graduates from Victoria, Vancouver, as well as from other parts of Canada and the United States, have announced their willingness to start a fund to rebuild their alma mater.

It is estimated that the fire damage exceeded $100,000. Cause of the fire has not yet been determined by firemen. Deputy Fire Chief Frank B. Miller, who was in charge of the Saanich firefighters, said the fire was too far advanced for any accurate estimate of the origin of the fire.

The deputy chief believes the building could have been saved had an adequate supply of water been available.

Weather

Weather today and tomorrow, valid until midnight, Aug. 20:

The outbreak of cold air has spread southward during the last 24 hours and covers most of B.C. this morning. Widely scattered showers are now occurring at edge of the cool air which has reached central Vancouver Island in the coastal areas. Temperatures will remain below normal in most areas of the interior and near normal in the southern coastal regions.

Vancouver and vicinity, lower Fraser Valley—Variable cloudiness, clearing afternoon. Clear tonight and Wednesday. Winds light. Cooler.

Victoria and vicinity—Clear today and Wednesday. Winds light, increasing to southwest 15 during the afternoon today, light winds Wednesday. Cooler.

Georgia Strait—Cloudy with scattered showers, clearing afternoon. Clear tonight and Wednesday. Winds light. Cooler.

West coast Vancouver Island—Cloudy with occasionally overcast with scattered showers before noon. Cloudy early afternoon, becoming clear this evening. Cloudy with fog patches over the low areas Wednesday morning, clearing by noon. Winds light. Little change in temperature.

Suicide Foiled

NEW YORK (AP)—A jobless war veteran spent his last $1.20 for admission to the observatory of the Empire State Building Monday and 30 minutes later was seized by guards as he started to leap to the street, 86 floors below, police reported. Identified as Rodolfo Costello, 22, New York, he was taken to Bellevue Hospital for observation.

Let's see. Over 34,000 killed and almost 2,000,000 wounded in U.S. car wrecks last year. Wouldn't it seem awful if an atom bomb did it!

Communist Officers In Unions Exclude Services Of Board

WASHINGTON (AP) — Local unions of the Congress of Industrial Organizations were told today that National Labor Relations Board services will be barred to them unless every member of the 51-man C.I.O. executive board swears he is not a Communist.

Similarly, no American Federation of Labor union can petition for a collective bargaining election or bring an unfair labor practice charge against an employer unless each of the 15 members of the federation's executive council files a non-Communist affidavit.

Robert N. Denham, N.L.R.B. general counsel, handed down this decision as he issued the affidavit forms required under terms of the Taft-Hartley labor law, which will go into full effect Friday.

The forms, Denham told reporters, must be signed "by all A.F.L. and C.I.O. international and local officers" if those organizations want to use the board and its facilities.

In the case of the C.I.O., one member of the executive board is a self-avowed Communist. He is Ben Gold of New York, president of the United Fur and Leather Workers' Union.

Denham, reminded of this by reporters, said only that "the alternatives, if there are any, are obvious."

As for the A.F.L., there have been reports that John L. Lewis, although a vigorous anti-Communist, might withhold his affidavit as a matter of principle.

Smuggling Boast By Four Youths

MONTREAL (CP)—Four U.S. youths, who obviously won't reveal their identity, said today they would keep right on operating their "Smuggling Inc." enterprise "until things get too hot for us. . . ."

The four specialize in U.S. cigarettes, perfumes and silks smuggled across the border in a two-ton truck via a little used road near House's Point, N.Y., and Lacolle, Que.

Likely looking customers are approached in liquor stores and uptown night spots. Cigarettes, retailing in the United States around $1.45 to $1.50 a carton, are sold for $2.50, compared with the equivalent Montreal price of about $3.60 for Canadian cigarettes. Perfumes and silks bring more than 100 per cent profit. Requests for special articles are filled on the next trip.

As to the police—"they haven't even come close yet."

United Cigar Chief Dies

SOUTH ORANGE (AP)—William T. Posey, 75, who opened a small tea and tobacco store in Kansas City at the age of 17 and developed it into a chain of retail outlets later known as the United Cigar Stores Company, died Monday. Posey joined with the late Charles Whelan in 1900 in founding the United Cigar Stores Company, and by 1929 they had increased the company's holdings to a total of 3,000 stores.

DEFENCE MINISTER SCORES BULL'S-EYE—Not content with being a spectator during his visit to Connaught Rifle Ranges, near Ottawa, where the Dominion of Canada Rifle Association's meet was in progress last week, Defence Minister Claxton borrowed a rifle from Maj. G. A. Henderson of Hamilton, flopped down on the ground, drew a bead and fired. The signal came back: "Bull's-eye." Mr. Claxton grinned and as he handed back the rifle Lt.-Gen. Charles Foulkes, chief of the general staff, quipped: "That must be a good rifle." Standing behind the minister and acting as coach is Col. J. D. Fraser, president of the D.C.R.A. Others in the background are Lt.-Gen. Foulkes and Maj. G. B. Read, range officer.

Alberta Oil Search At All-Time High

CALGARY (CP)—Oil exploration in Alberta has reached an all-time high. Footage drilled in the province during June was 100,830 feet, according to the monthly report of the Petroleum and natural Gas Conservation Board. More than half of this, 54,000 feet, was in search of new oil and gas fields.

The nearest previous approach to this record was in April, 1944, when nearly 80,000 feet was drilled; about 45,000 feet in search of new fields.

Alberta production of oil and natural gas for the month of June was 18,024 barrels compared with 19,405 barrels for June in 1946.

Another record was set in June this year—drilling licenses. A total of 33 were issued during the month compared with 11 in June in 1946.

Ontario Storm Levels Crops, Downs Wires

TORONTO (CP) — A lashing rain and electrical storm, driven by a strong northwest wind, took an erratic path through southern Ontario Monday, flattening crops, uprooting trees and disrupting hydro services at a number of points.

In the north, the Sudbury district felt the full blast of the gale, while at Whitby, near here, two buildings were hit by lightning, electrical wires were torn down and traffic brought to a halt by a half hour's blinding rain before the storm moved out over Lake Ontario.

Neither of the buildings hit was seriously damaged, but grain and tomato crops in the area were flattened. Other southern Ontario points felt lesser effects of the storm.

Egg Prices Rise

VANCOUVER (CP) — Egg prices were reported here today to have jumped three cents a dozen for Grade A large and medium, and eight cents for pullets. The season given was that demand was strong in proportion to the short supply.

The prices now stand 46 cents for Grade A large, 44 cents for medium, and 40 cents for pullets. Grade B are selling for 34 cents and peewees 20 cents.

THEATRE CEILING COLLAPSES—Four persons were injured when heavy chunk of cement fell from ceiling of the State Theatre, Akron, Ohio. An estimated several hundred persons were present in the theatre during morning showings.

Island News

Honor C.N.R. Agent At Deerholme

DEERHOLME—James Flynn, C.N.R. agent here, who has been with the company since 1914, was honored on his retirement with presentation of an initialed wallet and sum of money.

R. A. Bell, transportation assistant for the C.N.R. on the island, made the presentation to Mr. Flynn, who with Mrs. Flynn will reside in Vancouver.

Mr. Flynn who has 46 years railway experience, started out with the Long Island Railway in the United States. He came to Canada in 1910 and spent three years with the C.P.R. at Chaples, Ont. His first agency was at Cudworth, Sask., in 1914. He was in Victoria from 1938 to 1939, at Blue River from 1939 to 1945, and at Deerholme since 1945.

About 30 friends and fellow workers attended the presentation.

Island Ratepayers Protest Commission

A vote of censure of the provincial government's action in appointing a commission composed entirely of government servants to investigate a request for school tax relief for up-island districts was passed by the Vancouver Island Ratepayers' Association at a meeting in Nanaimo, Saturday.

The commission appointed was not the commission recommended in the Cameron Report to be set up as a board of equalization, Col. A. G. B. Lewis, vice-president of the association, said.

Saanich Fires

A grass fire at Goward Road, Prospect Lake, and a bush fire in the vicinity of Brentwood College, which was destroyed by fire Saturday night, kept Saanich firefighters busy throughout the day yesterday. The bush fire at Brentwood was caused by sparks from the smoldering ruins of the college.

The Saanich Fire Department also put out a grass fire in a field at Cloverdale Avenue at 3.02 p.m., as well as a fire on Tanner Road. The department was again called out at 8.10 p.m. to put out a rubbish fire on Dysart Road.

Paper Says Britain To Continue Socialist Reconstruction Plans

LONDON (Reuter) — While today's British press splashed the news of the developments in the Anglo-American loan talks in Washington, the Labor Daily Herald stated emphatically that Britain would not abandon her "socialist reconstruction" program in her bid to overcome her present difficulties.

Meanwhile, a Washington message in the Liberal Chronicle by its correspondent Stanley Burch said "the efficiency of Britain's nationalization methods will be challenged by the United States when the Attlee government seeks further credits or other forms of financial assistance."

Several sections of the press pointed to self-help as a means of solving Britain's economic crisis

Commenting on the immediate domestic developments in the situation, the Conservative Daily Mail's diplomatic correspondent said cabinet ministers had been "warned to stand by for another emergency meeting" and that "when it is called depends entirely on the course of the dollar crisis talks in Washington."

The Daily Herald editorial added: "It will be the government's job to bring home the realities of our situation to the American authorities, and also to the suppliers of food in Canada, Argentina and elsewhere, who are so anxious to be paid in United States dollars for everything they sell. The sooner all those concerned face these realities, the quicker we shall get through the awkward period which confronts Europe from now until the Marshall plan can be brought to fruition.

Stressing the self-help remedy, an editorial in the Conservative Daily Telegraph said, "Our own efforts remain by far our greatest asset. They alone can substantially mitigate hardships which must, in any case, be severe."

Kingston Steward Says Food At Prison Better Than In Army

TORONTO (CP) — A copyrighted story in the Toronto Globe and Mail today disclosed receipt of a letter smuggled out of the Kingston penitentiary and mailed to the newspaper—signed "Donald (Mickey) McDonald, No. 8213, Kingston Penitentiary."

Its arrival was a matter of hours after McDonald and two other long-termers had broken out of the federal prison 160 miles east of here early Monday morning. The letter was dated "August, 1947."

The timing the letter's arrival gave it prominence not ordinarily accorded similar missives with similar complaints.

McDonald's letter said the prisoners were being starved by inadequate rations and said that "it's only a matter of time before we will be forced to do things we will later be sorry for."

The Globe obtained and printed along with the letter the comment of Maj.-Gen. R. B. Gibson, commissioner of penitentiaries at Ottawa, who said he had not received the petition which McDonald in the letter said had been forwarded to Ottawa. The commissioner added:

"In connection with complaints, I have visited the institution several times in recent months and heard no complaints about the food. They have a very good steward there. Food is always made a subject of complaints by dissatisfied convicts."

In a special dispatch from Kingston the Globe quoted Bert Adams, chief steward of the penitentiary, as saying that "the food at the penitentiary is better than the men in the ranks (army) got, even in Canada. It is nearly as good as we served to the patients in the military hospitals overseas."

The letter signed by McDonald said the food given prisoners "is a disgrace to our country where there is plenty." For breakfast he said there is porridge with powdered milk that "nine out of 10 don't take," and one slice of bread until noon hour, when the men get a stew. He called this stew "a disgrace."

The letter enclosed a petition supposed to have been signed by 700 convicts at Kingston. This petition said prisoners are compelled to beg, "even steal," ingredients to fill an all-time low of basic recipes.

Drafting Terms For Newfoundland As New Province

OTTAWA (CP) — The subcommittee now drafting terms under which Newfoundland might conceivably join Canada as a 10th province may conclude its work this week and be ready to report to plenary meetings of Newfoundland and Canadian representatives, a government official said today.

The sub-committee has been at work since July 31, when it was decided that the discussions, inaugurated June 25, had reached a stage where the drafting of workable terms of union could be started.

Absence of External Affairs Minister St. Laurent from Ottawa during this week makes the holding of a plenary session before next week an improbability. Mr. St. Laurent is a joint chairman at plenary meetings.

Draft terms under which both countries think union might be workable would be submitted to the Canadian cabinet for approval following their acceptance at a plenary meeting. The seven-man delegation likely would await cabinet approval of the terms before reporting back to the 45-man national convention elected a year ago to recommend future form of forms of government for the island.

On the basis of the terms, the convention would decide whether union with Canada should be one of its recommendations to the people, who will decide in a referendum the future form of government for the commission-controlled island.

YOUNG BUSINESSMEN BRUSH FOR LUCRATIVE CAREERS—Members of a new juvenile firm, self-styled "Baby Sitters Inc.," seven 12-year-old boys hold their first professional meeting in New York City. Already veterans at minding kid brothers and sisters, the youngsters pick up "pointers" on the art of diaper changing from Nurse Marion Foltete. Under sponsorship of the Children's Aid Society, and with co-operation of seven-month-old model Robert Giorlando, group is using scientific approach to business venture. Rates, by the way, are 50 cents an hour.

ANNOUNCEMENTS

Alcoholics Anonymous — The alcoholic, as distinguished from a normal drinker, is a person who drinks even when he doesn't want to and knows he shouldn't. Such compulsive drinking causes unhappiness and ruins careers. If this is your problem, then you may obtain help—freely and confidentially. Apply Victoria Chapter, Alcoholics Anonymous, P.O. Box No. 1, Victoria; P.O. Box No. 869, Duncan, B.C. ***

New Ticket Office For C.P.R. In City

A new C.P.R. ticket-office is in the more immediate program of company expansion, W. W. Neal, company president, told guests at the civic luncheon tendered the directors Monday.

Mr. Neal said the present office had been adequate when it was built, but with the steady growth and modernization of Victoria, the directors felt the present ticket-selling facilities were completely inadequate.

He did not say how much the company was prepared to spend on the new office, or give any date for the start of its construction.

Secret Honeymoon For Irish Beauty

VANCOUVER (CP)—Ireland's beauty queen and her Canadian sailor husband whom she traveled half way around the world to wed, Monday were on a secret honeymoon.

Jeanette McFetridge was married to her wartime sweetheart, Arthur C. Siddall, here Saturday in a double-ring ceremony and later left for a honeymoon at a secret spot known only to themselves and a few intimate friends.

The bride came here two weeks ago from her Belfast home, ending a three-year-wait for her wedding day.

Relieve HAY FEVER Misery This Easy Way

Don't suffer from the sneezing and wheezing, the sore, streaming, irritated eyes and itchy ears of Hay Fever this year. Read what Mrs. Leo Lanois, 25½ Lennox St., Cornwall, Ont., did to win quick, safe relief:

"My eyes were itching, red, running and painful," writes Mrs. Lanois. "My nose was stuffed up and I could hardly breathe or lie down because of Hay Fever. Nothing seemed to help me. Then I tried RAZ-MAH and got real relief. That's all I needed. I had no more sore eyes, no more itching; my nose and throat were comfortable and I did not cough any more."

If the discomfort of Hay Fever makes your life miserable—if you can't sleep or even lie down—you owe it to yourself to try Templeton's RAZ-MAH, specially made to give you quick, safe relief. Used successfully by thousands. Get a box today—and you'll sleep better, work better, feel better. At druggists everywhere—50c, $1. R-16

Slow Poisoning Of Hitler Hinted By Man On Trial

NUERNBERG (AP)—The record of an interrogation of a German doctor on trial for his life has disclosed a hint that Hitler may have been poisoned by slow degrees in the last years of his life.

The document is in the files of prosecutors who tried 23 Nazi S.S. doctors for inhuman experimentation.

It is a long-winded Nazi-inspired statement by Dr. Karl Brandt, hawk-nosed S.S. man who was the Fuehrer's personal physician for a time and had entree to his circle of intimates.

It tells how Hitler surrounded himself with various women besides Eva Braun, and nightly "held court" like something out of the Arabian Nights.

Brandt described sundry women who had the run of Hitler's Obersalzburg chalet above Berchtesgaden and then casually commented:

"Hitler began to suffer more and more from intestinal troubles. The diet assistant, a half-Jewess who had been sent by Field Marshal Antonescu (Iron Guard dictator of Romania) had to be replaced."

Brandt doesn't himself know if there was any connection, but U.S. lawyers expressed astonishment that Hitler, the greatest Jew hater of all time, should trust a part Jew to prepare his food.

The doctor said that a "Miss Martiali" was engaged as diet expert.

"There was scarcely a day when Hitler did not stress the surprises prepared for him by Miss Martiali."

But Hitler wasn't quite as naive as Brandt, apparently, for:

"Hitler, who nearly always had taken his meals alone, invited Miss Martiali to his meals, pointing out she ought to taste herself of the dishes she prepared."

"That went so far that even in Berlin Miss Braun had to recede and take her meals alone while Hitler took his lunch or supper together with Miss Martiali."

The doctor said this led to tension between the Fuehrer and his mistress, but never quite to an open break.

Okanagan Fruit Growers Hail U.S. Apple Import

KELLOWNA (CP) — A. K. Loyd, general manager of B.C. Tree Fruits Ltd., today hailed as "a decided help to Okanagan fruit growers" the recent announcement by the United States agriculture department that Canada would be allowed to sell 3,500,000 bushels of apples on U.S. markets during the 1947-1948 season.

Mr. Loyd termed this year's crop "quite good," but not as good as last year's 9,000,000 bushel bumper crop.

Careful, Mister!

Figure of man at right and the 500-pound aerial bomb at left point up the tremendous size of the 42,000-pound bomb which the U.S. Army Air Forces plan to use in a test bombing. Approximately twice as large as the largest "block-busters" dropped during the war, the monster was developed by the U.S. Army Ordnance in 1945.

Urge Passengers Fly Backwards

WASHINGTON (AP) — President Truman's air safety board wants "intensive study" to be given the idea of having all airline passengers ride backwards.

In its fifth report since a series of crashes in May and June led to its creation, the special panel observed that "on the surface it seems much can be said for facing seats toward the rear of planes.

Among other points of the report the board proposed that by Next July 1 all pilots and co-pilots be required to wear shoulder harnesses as an extra precaution in event of crashes. The shoulder harness and the backwards-riding would both be aimed at combatting the same hazard — injuries from being thrown violently forward when a plane has an accident.

Nazis In British Zone Classified

BERLIN (CP) — All German Nazis interned in the British zone will be discharged or classified for denazification by Oct. 1, if by that date they have not been required by an Allied country for war crimes charges, British authorities announced Monday.

The decision has been made to speed up the clearance from internment camps and war crimes holding centres.

The announcement came 24 hours after the publication of a Soviet decision ordering a differentiation in treatment between "little Nazis" in the Soviet zone, who in future will have full voting and electoral rights, and war criminals and militarists, to be brought speedily before the courts.

The Soviet announcement was made by Marshal Vassily D. Sokolovsky during the week-end.

The action, similar to steps taken previously in the U.S. zone, grants the right to vote and to hold office to all Germans in the Soviet zone who formerly had been nominal members of the Nazi party but had not committed "crimes against the peace and security of the people of Germany or other nations."

Signs Of Early Winter Perceived

VANCOUVER (CP)—The hunters and trappers of the north country had signs of an early winter Monday—snow.

At Beatton River, 900 miles northeast of here, light snow has fallen continuously since late Sunday night, and at Fort Nelson rain changed to snow during the morning.

Temperatures fell to freezing at most northern British Columbia points, with Smith River registering an overnight low of 26.

The cold air mass was moving southward, with cloudy and showery weather forecast for Tuesday.

Baby Suffocated

Saanich police reported today that the two-month-old child of Mr. and Mrs. Lloyd Smith, 943 Stafford Street, died from suffocation in its crib early Monday morning.

The baby, suffering from a cold, was found by Mrs. Smith dead at 7.30, according to police, who said the baby must have died some three hours earlier. It was found lying on its face.

Italian Industry On Recovery Road

ROME — Italian industry is slowly beginning to recover.

Production is still far below prewar and wartime peaks. But at Turin, in industrial north Italy, the Fiat automobile plants are employing 14,000 workers.

At nearby Genoa, the famous Ansaldo shipyards, undamaged by the war, are again building ships for the maritime nations of Europe and South America. Ansaldo employs 6,500 men and 500 women. Other plants at Genoa are building electric and steam locomotives and railway cars.

All together about 80 per cent of Italy's prewar industry is functioning again despite difficulties it has faced.

It is still too early to determine what effect the new possessions tax will have on industrial recovery. The government has just levied a 4 per cent tax on all possessions, from furniture to factories. In addition there is a progressive tax beginning at 3 per cent on holdings worth $6,000 and rising to 61 per cent on private possessions valued at more than $3,000,000.

One serious drawback in production for many months after the war's end was the uncertainty of Russian reparation payments. Industrialists were not inclined to push production, only to turn the finished products over to the U.S.S.R. This was partially settled with the signing of the Italian peace treaty with the Allies. Production has increased since then.

REVIVAL—As Italy's industries begin to recover, women welders at work at the Ansaldo Shipyards near Genoa bring back a scene familiar to the U.S. during war.

Strong leftist union control has been blamed for some of the slowness in industrial recovery. Material shortages, lack of foreign exchange, trade restrictions and war damages all have been factors.

Despite these difficulties, Ansaldo has completed 30 vessels, totaling 78,000 tons, since 1945. Turkey is waiting delivery of eight more. Argentina has ordered three, and Norway, Denmark, Brazil and even Switzerland are bidding for future deliveries.

The Breda works in Genoa, which built light machine guns during the war, now is working at nearly 50 per cent of prewar capacity, building replacements for Italy's war-wrecked railroads. However, Breda's sole customer is the Italian government, and when its present contracts are filled it may be forced to curtail production; it has no foreign orders yet.

Before the war Fiat turned out 400 cars a day, including the "Topolino" (small mouse). Mussolini wanted one of these for every Italian family. Today, production is around 110 vehicles a day, 80 of them trucks for the government. The few Topolinos being built are selling for about $700. Other models cost up to $6,000.

Fiat has had to go outside Italy to get its steel. It is using prewar built U.S. presses.

TRAINS: Breda works in Genoa is making railroad engines.

SHIPS: Ansaldo has customers in six countries plus Italy.

TRUCKS: Famed Fiat plant makes 80 trucks, 30 cars, a day.

Dieppe Raid Of 5 Years Ago Commemorated In Events Today

DIEPPE, France (CP)—Dieppe sought today with flags and bunting to hide the scars of the Canadian raid which took place five years ago today.

But the dazzling decorations cannot hide completely the damage caused when seven Canadian regiments supported by two British Commando units carried out the Allies' first major combined operations raid in daylight.

This prelude to the North African campaign later in 1942 left the dusty French town a battered remnant of its former self and, despite recent improvements, Dieppe is largely as the Canadians left it a few hours after their first shells had rocked the coast along an 11-mile front.

The docks, although in operation, have not been fully restored due to lack of materials. Nor have the houses and other buildings knocked down in the fighting been rebuilt.

MONUMENT AT SEAWALL

Today it is hard to realize that so much hell was once unleashed on this quiet, lazy holiday region. But the memory of the dead is perpetuated by a monument standing behind the seawall which Prime Minister King unveiled a year ago.

At Pourville, a neighboring village to the south where the South Saskatchewan Regiment and the Queen's Own Cameron Highlanders of Winnipeg made their assault, there is a plate from the village honoring the Canadians. It is fixed to a rough stone slab under which villagers have laid bunches of flowers.

The bridge connecting Pourville with the main part of Dieppe—across which Lt.-Col. C. C. Merritt of New Westminster, B.C., walked helmet in hand while German mortar shells fell around him—has been repaired. Merritt, who was taken prisoner along with many hundreds of Canadian troops, was awarded the Victoria Cross for his action that day. Now he is a member of the Canadian House of Commons.)

One hundred Canadian veterans who were demobilized in Britain after the war participated in today's ceremonies.

Monday evening there was a torchlight parade at the Canadian military cemetery of De Vertu where victims of the his-

CONCERT IN THEATRE

Also Monday night there was a concert in the Dieppe Theatre during which Canadian, British and U.S. music was played.

Today's events included a reception at the Dieppe City Hall; Roman Catholic and Protestant ceremonies at the Canadian military cemetery; dedication of a new street called "Avenue des Canadians"; offical re-opening of the 13th century chateau near the landing beach, which had been closed since the war; inauguration of a commemorative monument; and a large "Ceremonie de Souvenir" at the Place du Canada, where a monument to the Canadian troops is to be erected.

In additon to the 100 veterans Canada was represented by Col. Maurice Forget, military attache at the Canadian Embassy in Paris, acting for the ambassador, Maj.-Gen. Georges P. Vanier, now in Canada; Col. Hughes Lapointe, Parliamentary Secretary to Brooke Claxton, Canadian Defence Minister; Col. Paul Mathieu, Deputy Minister for National Defence; and Col. Allen Chambers of Vancouver, representing the Department of Veterans' Affairs in London.

Big Success Seen For Music Festival In Edinburgh

EDINBURGH (CP) — With cash registers ringing out a merry tune in advance sales, promoters of Edinburgh's first International Festival of Music and Drama are hailing their project as a success and hoping performances of the next two weeks will establish it as a permanent event.

More than 50,000 visitors are expected here Aug. 24-Sept. 6 to listen to orchestras and singers, watch ballet dancers and such polished stage performers as the Old Vic Company of London, and —if they want a materialistic interlude—visit an exhibition of Scottish industry which is being held simultaneously.

Three weeks before the festival was due to begin 100,000 of the available 165,000 tickets had been sold, with approximately one-fifth earmarked for visitors from overseas. These sales represented £50,000 ($200,000).

The festival will open with a service of praise and thanksgiving in stately St. Giles Cathedral, then settle down next day to a program in which performers from 20 countries will take part.

In all there will be 95 performances of concerts, ballets, plays and operas. Conductors taking part include Bruno Walter, John Barbirolli and Sir Malcolm Sargent. The Glyndebourne Opera Company, the Glasgow Orpheus choir, the Sadler's Wells Ballet Company and the Campagnie Jouvet of Paris are among the groups.

Vancouver Company Buys Out U.S. Firm

VANCOUVER (CP)—Officials of the B.C. Peat Co. Ltd. said today the company had purchased Atkins and Durbrow Inc. of New York, oldest distributor of peat moss in the United States.

The deal was said to involve a capital outlay of $250,000 and an estimated addition of $40,000 to profits, and includes all but a few minority shares in three associate companies of the U.S. concern, embracing large peat reserves at Port Colborne, Ont., and in the eastern United States.

Bomb Without Fuse Found In Downing St.

LONDON (AP) — A police guard discovered a bomb today under a Foreign Office archway in Downing Street, directly opposite the residence of Prime Minister Attlee.

Announcing the find, a Scotland Yard spokesman said the bomb could not have exploded, since it did not contain a detonator.

Examination by Home Office experts, he said, indicated the bomb had been placed under the arch leading from Downing Street to the Foreign Office quadrangle as a hoax.

The archway is within 25 yards of the entrance to the Colonial Office, where an unexploded bomb was found several months ago.

WHAT IS THE TRUTH?

SUFFICIENT OF RUSSIA'S POLITICAL technique is visible to the naked eye for the average intelligent individual to make up his or her mind as to what the men in the Kremlin want to do in Europe—and elsewhere, for that matter—to bring about a Marxian transformation. Stalin and Company have fared quite well to date. The old firm of world revolution may not be paying dividends, its stock may be low, its resources may not be such as to interest new investors as long as the terms of the original prospectus remain as they were in the days of Trotsky.

But the Politburo in Moscow, to change the metaphor, is ever vigilant. And because the time is not far distant when the Generalissimo may have to relinquish the reins of dictatorship, the leaders of the democratic world naturally want to know something about actual conditions obtaining in the Soviet Union—baffling to all normally-honest folk. So must the matter rest until it is possible to pierce the totalitarian curtain which obscures the information from which a discerning public might be able to draw fairly accurate conclusions. Speculative gloom prevails.

We are reminded of speculation, by the way, as one result of last Sunday's commentaries on the forthcoming elections in Hungary—scheduled for Aug. 31. In the first place, Mr. Howard K. Smith, author of "The Last Train From Berlin"—a work in which the writer summed up the internal situation in Germany immediately after Pearl Harbor as well as or better than most—and a CBS radio man on a roving commission in Europe, had very decided views on the Hungarian political situation. He was mainly concerned about the charges of "rigging" the electoral lists that will apply at the polls next Sunday week. He was apprehensive about the Anglo-American charge that something like a quarter of a million voters had been removed from the lists since the election in November, 1945, which he described as conducted on genuinely free lines.

We hold no brief for Mr. Smith; but we must recognize that he was speaking from Vienna, that he was in Budapest last Saturday, that he was reporting what he had seen. In particular, he did his best to refute the accusations in respect of the new electoral roll, contending that those who will be qualified to go into the voting booths a week from next Sunday will exceed those who enjoyed the franchise in the late fall of November, 1945.

It is not our intention to join the unofficial battle between the point of view which the British and United States governments have adopted toward the forthcoming elections in Hungary and that which Mr. Smith projected over the airways from the romántic capital of old Austria on Sunday. We are merely pointing out for the benefit of our readers the conflict of comments which reach them almost simultaneously—depending upon the stations to which they are listening—and from which it must be difficult for them to extract material upon which to arrive at a sound judgment.

To reduce the political situation to a few words, as Mr. Smith saw it at first hand, is simple. He says there will be more to vote, freely and without any "Red" interference, next Sunday week than went to the polls in 1945—the election which the democratic world described as "free and untrammelled." Both the British and United States governments are convinced that the opposite condition will prevail.

Thus one may assume that if the Hungarian elections at this stage are "rigged"—regardless of the tone of the intervening ideological controversy—and if such can be proved, the modus operandi of the two principal democratic allies in future international dealings may be more clearly defined.

FRENCH CRISIS

THERE HAS BEEN RENEWED TENSION in Paris today following the appearance of another threat to the government of Premier Paul Ramadier—an administration which has had a troubled life of eight months. In recent weeks, M. Ramadier survived a crisis resulting from the reorganization that dropped Communist representation from the Cabinet. But the present threat arises from within the Premier's party itself. In session at Lyons, the Socialist Party congress has called on the Socialist Premier and the 11 cabinet ministers of his political persuasion to implement a policy of increased "austerity", and to withdraw from the government if other parties of the coalition do not give their support.

The Socialist Party of France undoubtedly has taken its cue from the British government decision to tighten belts still further and increase production, even at the cost of temporarily losing some of the advantages which labor has won. France's economic problems are very similar to those of Britain: the need to increase exports, the food stringency, the falling national monetary balance, the necessity for foreign loans and the serious shortage of coal. The French Socialist Party might have wished to wait a little longer to see how Mr. Attlee's renewed austerity program turned out, but their problems are too urgent. They have had to call for the same treatment without delay.

Here will be a golden opportunity for the Communists in France, whose organized strikes brought that country to the brink of disaster this summer. A further decrease in the living standard may be a hard thing to sell to French workers, already impatient with the slow recovery of their country from the desolation of war. The point may be reached where additional hardship will not be accepted—a frame of mind of which the Communist party would take full advantage.

It may be, of course, that M. Ramadier will be able to persuade the other parties which help to form the government that the new policy will be the only successful one, and win their support. The Premier's orders from his party congress are plain, but they are in sharp contrast, for instance, to the policies followed by the Mouvement Republicain Populaire Party and the Radical Party which have formed a part of the Ramadier regime. Included in the policy, as laid down by the Socialist conference, were demands for more state control over economic affairs, immediate peace in Indo-China, reduction of military credits, and reorganization of the party to ensure strict adherence by Socialist ministers to the party program. A further dictum re-affirms non-collaboration with the Communists. The repercussions will be immediate, and it will tax M. Ramadier's political ingenuity to weather them. A collapse of his administration would spell serious trouble for democratic Europe.

AN IMPORTANT STEP

THE TECHNICAL ADVANTAGES OF diesel-electric locomotives over the rolling steam plants which haul railway carriages and freight cars over Vancouver Island's chief line will be more apparent to the experts in mechanics than to the man in the street. The average citizen, however, will be impressed by the implied improvement in service and efficiency promised in the announcement of the planned change made yesterday by Mr. William M. Neal, O.B.E., president of the Canadian Pacific Railway Company.

One point of particular importance will be apparent to all. Use of the new equipment, expected to be in complete operation by the end of next year, will reduce the fire hazard to valuable stands of timber through which the E. & N. now passes. That, in itself, is a matter for gratification by all who appreciate the vital part the forestry industry plays in the economy of Vancouver Island and British Columbia.

The simple logic of the benefits resulting from eliminating delays in taking on fuel and water will be generally understood, and the statement that time will not be lost to the same degree as is the case with the present engines carries its own commentary. Certainly the advantages of operation inherent in the newer type will be obvious from the fact that the company is making an expenditure of $1,704,000 on the switchover.

The distinction accorded Vancouver Island through the railway's decision to re-equip its E. & N. system with this more modern type of locomotive will not be lost on Victorians. It is a further manifestation of the keen interest taken by the Canadian Pacific in this farthest west branch of its world-girdling organization. As it improves rail transportation between this city and up-Island centres, it will draw the commendation of communities fully aware of the benefits to be derived from more efficient means of the exchange of commodities.

DANGEROUS COMBUSTIBLES

IT WOULD BE STRETCHING THE POINT to see in last night's heavy explosion in Cadiz an example of retribution visited on a military dictatorship. Such accidents may occur wherever combustibles are stored. Yet the blast which claimed lives estimated from 100 upward, injured thousands, and caused property damage running into the millions of dollars underscores one fact: As long as nations of the world find it necessary to pile up huge stocks of destructive war-making materials, the danger will always exist of their premature detonation.

Here, in the Spanish seaport, is a material example of an ideological condition fraught with danger to all peoples. In the Cadiz arsenal and naval torpedo storehouse were combined the elements which awaited only a spark to set them off. The flames of an encroaching fire touched the fuse and disaster resulted. Similar circumstances resulted in comparable explosions in the harbor at Brest recently and at an earlier date in Texas City. These were physical explosions that claimed lives and treasure.

Applying the analogy to the spiritual condition of the world today, we find countries of many descriptions piling up ideological combustibles, building hate and distrust into huge stores that could easily be ignited by growing frictions into an explosion that would blast the world into war on a global scale. Common sense dictates that every precaution should be taken to avoid such physical detonations as that which most recently caused widespread destruction in the Spanish port. Sanity further requires extreme care in handling the ideological substances which could blow up with infinitely more disastrous effects throughout the world.

As we understand it, a blueberry is just a wild huckleberry, fattened up and given a sissier flavor.

Matter Of Fact

By JOSEPH and STEWART ALSOP

WHEN PRESIDENT TRUMAN tells his press conference that there is "no need" for a special session, he is off the beam. The President is in the position of a man armed only with a rifle which may explode when fired, and hotly pursued by a very large, very hungry lion. Such a man might conceivably take his chances on outrunning the lion rather than firing the rifle. But he would certainly not blandly declare, as he fled pell mell across the wastes of the veldt, that he had no need for a weapon.

The lion is at the President's heels, whether he notices it or not. In Britain, an economic crisis has already shaken the powerfully entrenched Labor government to its very foundations. Yet the British crisis only came so soon, precisely because the British government was strong.

THE BRITISH still have nearly $4-billions of credit, dollar assets and gold. The cause of the crisis in London was not the final exhaustion of their cash reserves. A run on the British treasury merely brought home to the government how fast their situation was deteriorating. The crisis resulted from the government's courageous decision to halt this deterioration by the harshest and most unpalatable measures. The crisis was a sign, in truth, that Britain is in a state of glowing health compared with key nations in Western Europe.

TAKE, FOR EXAMPLE, the situation of Italy. Italy, still more than Greece, commands the Mediterranean. If the battle for Italy between the western and Soviet systems should end in Soviet victory, the resulting pressure upon France would be almost irresistible. At the moment, the Italian Communists are reported by most competent observers to be losing ground. But the financial foundation of the government of Premier de Gasperi is fundamentally and terrifyingly insecure. President Truman, if he understands his historic role, should tremble at a mention of the name of Rome.

Like all the western European nations, Italy exists by imports. For the year 1947, there has been a gap between Italian exports and Italian imports variously estimated from $600-millions to $750-millions. By every kind of device, from using up the remnants of U.N.R.R.A. to borrowing in Washington, the Italian government has covered most of the gap this year.

THE FACT IS, however, that the Italian reserves of hard money with which to buy abroad are now running appallingly low. Again there is some argument among the experts. But it is pretty definitely established that by December, the unhappy de Gasperi will have to tap his last emergency reserves in order to put food in his people's mouths and fire in his factory furnaces. The whole Italian emergency reserve consists of about $20-millions of gold and $80-millions of government controlled dollar assets. When this small sum is spent—a moment which must inevitably come about the new year or a little later—there will not be a nickel left.

ITALY WILL THEN HAVE NO remaining liquid assets to get supplementary food for her people, unless the hunted de Gasperi chooses to hold an auction of the contents of the Pitti, Uffizi and other museums. These facts are agreed to by the American administration's highest economic experts. And they take fully into consideration the recent settlement of Italy's wartime accounts with the United States, the so-called grant in aid for relief shipments and all other favorable factors.

IT IS HARD FOR US on this continent, with our almost over-prosperous economy, to grasp the meaning of such a set of facts. They mean three things. First, during the crucial period immediately ahead, the Italian government will be repeatedly rocked by financial panics, with resulting political instability. Second, the government will ultimately be driven to heavy cuts in the already inadequate Italian rations—something which the brilliant Communist leader, Palmiro Togliatti, must pray for every night to his Marxist gods. And third, not even the quickest imaginable congressional action on the Marshall plan at the regular session can come nearly soon enough to rescue the situation.

PREMIER de GASPERI in Rome, like Premier Ramadier in Paris, knows that his situation is deteriorating rapidly. Both he and Ramadier (whose problems are also serious) lack the strength, however, to survive the kind of preventative crisis Prime Minister Attlee has been experiencing. They cannot win support, in their still divided countries, for such Spartan measures as the British have adopted. Consequently, they are simply spending what they have on hand, and hoping for the best. When the blow-up comes (as it surely must) they will apply to Washington for aid.

ALREADY ROME BOMBARDS the Italian embassy in Washington with warnings, and Italian representatives mournfully transmit the warnings to the State Department. The officials of the State Department answer by urging the Italians to hang on as best they can. They also hint that somehow or other the Italian government will be thrown a life belt when it has sunk for the second time. But where the life belt is to come from, no one knows. Surely this is a poor way to deal with a world crisis which involves the whole democratic future.

Monopoly invariably breeds rivalry and is itself temporary.—Andrei A. Gromyko, Soviet delegate to the U.N. Security Council.

A Difficult Act

Marcus in the New York Times

The Church—Contrast In Publicity

From Public Opinion

The Provost of Portsmouth (Very Rev. E. N. Porter Goff), formerly Vicar of Immanuel, Streatham, is one of the representatives of the Church of England on the British Council of Churches. Writing in the "Church of England Newspaper" he says:

THE CHURCH should be less afraid of publicity. This has been impressed upon me by a visit I have just paid to the United States. To spend Lent and Easter in the Anglican branch of the Church in America is indeed an invigorating experience.

"On Sundays and week-days alike large congregations crowd the churches. One of the reasons for this remarkable religious renaissance undoubtedly is that the church in America pays much more attention to publicity than we do. Every church I visited had a special Lenten leaflet well printed and attractively produced.

VISITING PREACHER

"In hotels, clubs and shops there were displayed notices of the special Lenten services with photographs of the various preachers. The visiting preacher was, on arrival, interviewed by the local papers which usually carried a daily report of his sermons. As America is much more of a church-going country than Great Britain, every church I visited had at least one member of its congregation on the staff of the local newspaper.

"The amount of space given in newspapers of any kind to church matters appears to be greater than here. For example, on Easter Eve the New York Times carried two full pages of announcements of Easter services and, in addition, four pages giving details of the special music to be performed in churches on Easter Day.

"On that same day two more pages gave accounts of the great crowds which had attended church on Good Friday, while similarly on Easter Monday the papers were full of accounts of Easter Day services.

"The effect of all this is to make the American people more conscious of the Church as a factor in the life of the community than is the case here.

ALLOCATED TIME

"The church in the United States makes great use of the radio and local churches benefit from the fact that they are allocated time by local radio stations serving a city or district. Most central churches, such as cathedrals or large parish churches have regular weekly broadcasts. At St. Paul's Cathedral, Buffalo, where I spoke during Passion Week at a daily lunch hour service, the address was recorded for broadcasting each evening and this was done right through Lent. Local broadcasts of this kind arranged by the churches themselves are of much more value than a nationalized religion of the state-controlled BBC.

"To sum up, the church should be less afraid of publicity, and we may get both guidance and encouragement in our efforts in this direction if we study what the American churches are doing."

A New Call From The 'Fiery Cross'

U.K. Information Office

"AN CROIS TARA," Gaelic name for the "Fiery Cross," ancient method of summoning the Scottish clans, has come to Canada, for the first time so far as is known, to call all Scots the world over to support "Enterprise Scotland 1947"—an exhibition of industrial design which opens in Edinburgh on August 25.

Representatives of Scottish societies in Montreal were present at Dorval to receive the "Fiery Cross." After ceremonies in Montreal, the emblem was expected to be taken, through the co-operation of T.C.A., by plane to Scottish communities in Toronto and possibly other cities of Canada.

IN 1745

The "Fiery Cross" was sent out again for the first time for 200 years. The last time was 1745 when it summoned clans to the standard of Bonnie Prince Charlie before his invasion of England.

When a Scottish chieftain wanted to gather his kinsmen in a sudden emergency, he made a cross of birchwood tied with leather thongs, seared the four edges with fire and extinguished them in the blood of a goat.

The cross was then delivered to a swift and trusty messenger who ran full speed with it to the next hamlet where he presented it to the leading clansman along with the name of the proposed rendezvous. Whoever received the cross had to send it forward to the next village with the same speed. So it passed as swiftly as possible through all the districts which held allegiance to the chief.

On this occasion, the cross is being dispatched to Scotsmen around the world. It will be received and passed on between Scottish communities in the British Commonwealth, including Canada, South Africa, Australia and New Zealand, and in the United States and in Europe.

PICTURESQUE CEREMONY

After a picturesque ceremony in Edinburgh Castle, on August 6, during which Sir John Falconer, Lord Provost of Edinburgh, lit the cross in the presence of a large gathering of the Scottish chiefs and their clans, runners of the Scottish Athletic Association started the cross on its travels. Working in relays, the marathon runners left Edinburgh to the strains of massed pipe bands playing "Blue Bonnets Over the Border." The first 25 miles of the course were covered in a single stretch by Duncan McNab Robertson, British marathon champion until 1939.

This Scottish custom of using a fiery cross to summon the clans dates back to the earliest period of Scottish history. First record of its use was when the Roman general Agricola tried to push north into Scotland in A.D. 83. The Scottish people were able to repel the Roman invaders because they were summoned with the Fiery Cross by their chief, Calgacus. The two-foot high "Fiery Cross" now in Canada is an exact replica of the type used 19 centuries ago.

The B.O.A.C. pilot chosen to bring the "Fiery Cross" symbol across the Atlantic was tall, ruddy Captain Donald Anderson, 36-year-old Scotsman from Perthshire, now living in Montreal. He recently became the third pilot in civil airline history to fly the trans-Atlantic route 200 times.

Dishpan Hands

Australian News

THE TOP executive who used to spend his evenings reading reports or business journals, now finds that he is washing the dishes. This . . . is not conducive to the highest degree of managerial efficiency and enterprise."

This extract from the Institute of Public Affairs Review sent the Melbourne Herald in quest of opinions from business leaders and this is what they said:

Managing director of a manufacturing firm: "I'm sure washing up doesn't interfere with my efficiency. I've been called on to do every job about the house in my time—and if fellow executives come to dinner they lend a hand with the washing up afterwards, too. Why not a bit of time and motion in the kitchen? There's an opportunity for tired fellows to cut the job down by half."

A secretary — "Doesn't it depend on a man's attitude to the job? If he's fond of his wife, and if she can't get domestic help, he ought to enjoy helping her. If tired husbands were to buy washing machines and driers for their wives, they'd probably cut the work in half and have much more amiable wives when it was all over."

A managing director of a firm of engineers: "I help with the washing up. Every night, too."

A woman organizer: "I think a lot of men regard washing up as a relaxation. Certainly, most of the men I know regard it as a fair thing to help their wives if domestic help is unobtainable. Most men nowadays are students of sinkology, and it does them good to leave the office behind when they come home."

Global Survey

By JAMES D. WHITE
Associated Press Foreign Affairs Analyst

THE UNITED NATIONS is a stunted two-year-old struggling in deep waters.

The Security Council is grappling with the unprecedented problems of Greece and Indonesia.

Greece remains a hard knot of Russo-American contention, and untieing that knot probably would be relatively simple if it were not pulled so tight by the antagonism between the two most powerful countries in the world.

Indonesia is different in two ways. Here the most immediate U.N. difficulty is simply the will of The Netherlands, which thus far has refused to recognize Security Council authority to examine what the Dutch consider an internal Dutch affair. At stake is the question of whether peace is more important.

However, behind the Indonesian question is a smouldering discontent in more than half of all human hearts. Regardless of what the U.N. can do about Indonesia, it will merely be starting to tackle a key question of this country—how to extend freedom and a better life to half a world which will find them new and strange.

Upon either or both of these cases—Greece and Indonesia—the United Nations could stand or fall. A few weeks from now it may be clear whether the organization will work or whether the world will junk it and intensify the existing power struggle with an arms race.

How this comes out will be determined in the last analysis by the faith of people everywhere in the United Nations. People are behind the governments who are supposed to be behind the U.N.

That's an old point, but the U.N.'s legal director, Abraham H. Feller, made it again last week in an address at Palo Alto, Calif.

"Americans," he said, "know the unquestioning obedience which the decisions of the U.S. supreme court command, though it can muster no more than one marshal to enforce them.

"I doubt if they would stand one whit better if Congress voted the chief justice an armored division and a fleet of super-fortresses. The idea of the United Nations must stay strong and grow stronger. In the last analysis this strength will come not from money, or armies, or government, but from the people."

CLIPPED at RANDOM

BACKYARD BATTLEFRONT

Halifax Herald

Despite the impressive arsenal of chemicals at the disposal of the gardening forces, the fight is by no means ended, for the bugs have tremendous reserves of reinforcements. As fast as their divisions are mown down, new units enter the fray. Some are air-borne, some are uncannily mobile land forces, and most dangerous of all, perhaps, are the forces of the underground.

A garden may have been a lovesome place to the poet — but many a garden today is a battleground strewn with the carnage of unremitting conflict.

VACATION PACKING

Windsor Star

There's nothing like packing for a vacation. No matter how many trunks, suitcases, valises, portmanteaus and boxes there may be, there is always something to be forgotten, something useless to be taken along. It has always been that way, always will be that way.

A lot of people think packing is half the fun of going away. Those wo take it seriously want to have a suit for fishing, a suit for riding, a suit for golfing, a suit for walking. Or, if it is the opposite sex, they want clothes for every occasion, rain or shine.

Days before the vacation begins, the luggage is hauled out. Beds are covered with this and with that. When a problem arises about whether to take this one or those two, it is settled by having all three go into the bags, perhaps never even to be taken out at journey's end.

Such fun there is to load up the car with all kinds of bags and grips. Such pleasure to lug it all in and then lug it all out every evening and every morning. The stuff gets heavier each time it is shifted.

And, no matter how much is taken, something is always left at home, something that is bound to be needed.

There is nothing to be done about it. Just resolve to have two less bags next year and know that instead of two less, there will likely be three more.

They'll Do It Every Time

Famous Saxophonist Coming To Victoria

Johnny Hodges, America's No. 1 alto sax man who is appearing with Duke Ellington and his orchestra at the Bay Street Armories Aug. 26 has been making mellow music with the Duke for the past 18 years.

Johnny, born in Roxbury, Mass., in 1908, has been playing the sax since he was 15. His first job was with Joe Steele in his home town.

Many youngsters have asked Hodges to explain the formula and secret of his wonderful tone on the sax. Johnny finds it difficult to answer these questions because there is no secret or formula. You just have to study hard and practice regularly, he says. Hodges confesses that he only practices while rehearsing with the band. But in his early days he studied hard and listened to solos by Coleman Hawkins, Benny Carter, Buster Bailey and others. In this way he was able to create his own style.

Johnny's career has been highlighted many times through awards won in the Downbeat, Metronome and Esquire polls.

There are 48,000,000 Mohammedans in China; 2,624,166 Roman Catholics and 618,000 Protestants.

In the Old Roman calendar, June was the fourth month.

82 Enrolled At Victoria College

Registration for the first week at Victoria College held almost to the figure last year, which had a record attendance of students at the college, Miss Dorothy Cruickshank, registrar, reported today.

There were 82 students registered since registration opened last Monday, and of these 28 were veterans. During the corresponding week last year 90 students registered.

It is anticipated, she said that the enrollment will be approximately 450 this year, compared with 600 last year. The final matriculation class for veterans at Tyee Road school was small, and it is expected veterans enrollment in the first year will be substantially less than 1946.

City Ahead In Week's Building

The city led last week's building figures with 37 permits having been issued for $78,100, including permits for 11 dwellings.

In Saanich 21 permits were issued for $34,125, including permits for nine dwellings valued at $27,300.

Three building permits were issued in Oak Bay for construction valued at $3,224. One permit was for a $3,000, 5-room house at 2121 Fair Street, and the others were for minor alterations.

Only one permit was issued in Esquimalt for a garage and filling station at Tillicum and Craigflower Road, $6,500.

Playground Presents Gypsy Encampment

Gorge Park was the scene of a gypsy encampment as the playground held closing exercises. Five hundred people were in attendance to witness the events. Supervisors, committee members and assisting ladies, as well as the children, were in gypsy costume, making it a colorful affair. Gaily decorated tables displayed a toy circus, clay work, woodwork, basket weaving, table decorations and other handicrafts made by the children.

Mrs. C. H. Roberts, chairman, made the opening speech. Mrs. R. H. Dresser presented corsages to Mrs. F. Farrow, supervisor, and to members of the committee. Little Susie Corney presented a gift to the supervisor on behalf of the children of the playground. Mrs. A. W. Wilkinson presented Mr. Woodrow, the park caretaker, with a gift of appreciation. E. C. Head awarded the good citizenship cups to Diane Coles, Isobel Pearce, Billy Gandy and John Gray; also pins to last year's cup winners.

The highlight of the evening was the presentation of "Gypsy Princess," which was directed by Mrs. Farrow and included dancing, tumbling, rhythm band and singing games around a bonfire.

Orangeade and cookies were served to the children and each received a balloon.

Meeting May Revive Dairymen's Association

Re-formation of the Provincial Dairymen's Association, which died in 1941 after 50 years of service to British Columbia's dairymen, will be attempted at a conference to be held Wednesday of next week in Vancouver, it was learned at the Parliament Buildings today.

The Interior Dairymen's Association is taking the initiative to revive the provincial organization. The meeting, to which dairymen from all parts of the province have been invited, will be held in the Medical and Dental Building.

Los Angeles Trip Follows Wedding

Motoring to Los Angeles, Calif., on their honeymoon trip, are Mr. and Mrs. Newal Wilson Taylor, who were married Friday at Collingwood United Church, Vancouver.

The bride, the former Miss Frieda Louise James, is the daughter of Mr. and Mrs. Arthur James, 1620 Ross Street, Victoria, and her groom, the son of Mr. and Mrs. J. Taylor, Vancouver.

For the ceremony, performed by Rev. J. W. Smith, the bride chose a turquoise blue suit, with deep brown and pink accessories, and corsage bouquet of pink rosebuds.

Miss Eileen James, her sister's sole attendant, chose grey and powder blue accessories in theme with her smart grey suit. She carried a Colonial bouquet.

Jack Taylor was best man for his brother, while Alec and Wally Taylor, also brothers, seated the guests.

W. Brechin proposed the toast to the bride at a reception at Rio Hall, Kingsway Road. Mrs. James and Mrs. Taylor assisted in receiving guests.

On return from the honeymoon trip, for which the bride donned a three-piece leaf-green suit. Mr. and Mrs. Taylor will make their home in Vancouver.

Langford — A special meeting of executive members of Langford Parent-Teacher Association will be held in their room in the schoolhouse, Thursday, at 8 o'clock.

Reid's Bronchitis Remedy is on sale for 39c and 69c at all Cunningham Drug Stores and other drug stores. F-5

Trail Riders Camp At Prospect Lake Overnight

Inaugurating one of the first trail rides on Vancouver Island, Mrs. Don Carley, left, led a group of teen-age girls out from Victoria Monday morning. Left to right from Mrs. Carley, riders are Mildred Nastis, Roberta Crombie, Sheila Olsen, Barbara Ann Crombie, Marguerite Fairful, Delores Dash, Margaret Nixon, Pamela Burley, Diana Elkington, Thelma Lorandie, Myrna MacDonald, Edith Nixon and Lois Taylor. Leaving the city at 11 a.m. the girls rode to the old Rithet estate near Royal Oak where they stopped for lunch, continuing the ride early in the afternoon. They "camped out" last night on the Anderson farm at Prospect Lake, sleeping in bedrolls and cooking their meals at an open fire. The party will return to Victoria today.

Just Six Bridal Attendants Probable Choice Of Princess

LONDON (Reuter) — Latest speculation on the forthcoming marriage of Princess Elizabeth and Lieut. Philip Mounbatten is turning on the choice of bridesmaids.

In pre-austerity days, the Princess would probably have been attended by at least a dozen bridesmaids, but in keeping with the times, it is unlikely that when she goes to Westminster Abbey Nov. 20 she will have more than six.

There are three obvious choices. Her younger sister, Princess Margaret, will be chief bridesmaid. It is almost certain that Princess Alexandra, 10-year-old daughter of the Duchess of Kent, will be in attendance. And court circles believe that Pamela Mountbatten, 18-year-old younger daughter of Viscount Mountbatten, Governor-General of India, will be a third choice.

Other names mentioned so far are those of the Hon. Margaret Elphinstone, Princess Elizabeth's cousin—her mother is an elder sister of the Queen—and Ladies Elizabeth and Anne Cavendish, daughters of the Duke of Devonshire, who are close friends of the Princess.

One definite decision is that the Archbishop of Canterbury, Dr. Geoffrey Fisher, will observe the ordinary marriage service of the Church of England when he weds the young couple.

The wedding will be on a much less elaborate scale than the coronation of the King and Queen in 1937.

One of the Archbishop of Canterbury's problems is to find an expert to emboss on vellum the wedding license. The craftsman who had prepared Royal licenses for decades now is dead, and the art of beautiful penmanship becomes ever more rare.

The marriage license for the late Duke of Kent's wedding was a sheet of parchment nearly a yard square with every word written by hand with a quill pen in old English black lettering.

Details of the wedding cake have not yet been announced, but it is certain to be smaller than the one which was cut with a silver knife at the wedding of the King and Queen—a cake nine feet high and weighing some 800 pounds.

Woman Flier To Try For Speed Record

CHICAGO (AP)—A Wilmette, Ill., woman flier who is equally comfortable with cold cream or engine grease on her face, said Sunday she's going to try to win the Bendix coast-to-coast air race Aug. 30.

She is Jane Page, 25, a comparative newcomer to competitive speed flying. She took second place in the Halle Trophy race during the National Air Races at Cleveland last year.

Putting the final touches on her twin-engined Lockheed F6G plane owned by two friends, Jane said:

"I think our plane can better the speed of 435 miles an hour with which Paul Mantz won last year, if I fly well."

Jane said she learned to fly while attending the University of Arizona. She enlisted in the Wasps and flew as a passenger pilot for the United States army during the war. Following her discharge, she married Sonny Hlavacek of suburban Wilmette. Both work in her father-in-law's florist shop.

Engagements

Announcements to appear under this heading will be accepted at the Times Advertising Department. Minimum charge $1.50 for 10 lines, and 15c for each additional line.

Mr. and Mrs. C. Akehurst of Signal Hill, Esquimalt, wish to announce the engagement of their daughter, Marjorie, to George Ernest Masterton, son of Mr. and Mrs. G. E. Masterton, 193 Cardowan Road, Glasgow E2, Scotland. The wedding will take place on Aug. 23, at 7 p.m., at St. Andrew's Presbyterian Church, Victoria

Many telephone strikes would kill the business. Too many people enjoy never hearing the thing ring.

Club Calendar

Island Temple, No. 8, Pythian Sisters, sewing tea Friday, 8. home of Sister W. McKay, 3074 Earl Grey Street, Sister V. Barry co-hostess.

TOLMIE PARK PLAYGROUND

An enjoyable time was experienced at the closing gathering of the Tolmie Park playground. Councillor Rudd and Mrs. M. Hamilton, park supervisor, spoke briefly.

Great interest was shown in the display of handcrafts created by the children. The rhythm songs, dancing and tumbling acts, the latter supervised by A. Murphy, were enjoyed.

Much merriment was caused when Michael Whitehead and Ronald Reid, representing a wild horse, arrived on the scene.

After the races which were run off by W. Green, ice cream and lemonade was served to the children. An open meeting will be held at the park on Aug. 29 at 7.

Shimmering Satin Adorns Bride

Misty net veiling cascading from a delicate net tiara enhanced the shimmering beauty of white satin fashioned with sweetheart neckline, long sleeves pointed at the wrists and full skirt, slightly en train, gathered to a long fitted bodice, worn by Miss Martha Friesen when she became the bride of James Ronald Saunders Saturday at 8.

Church of Our Lord, decorated with baskets of gladioli, chrysanthemums and asters, was the scene of the ceremony performed by Rev. D. L. Gordon.

The bride, daughter of Mr. and Mrs. Henry D. Friesen, Sardis, B.C., was given in marriage to the son of E. A. Saunders, 216 Cook Street, and the late Mrs. Saunders, by her father. Pink rosebuds, white gladioli and swansonia showered in the bridal bouquet, and as her only jewelry, the bride wore a cameo pendant.

Attending her sister, Miss Elsie Friesen wore blue embossed taffeta. Her shoulder veil of blue was caught to her hair with a garland of pink gladioli and mauve sweet peas, and similar blossoms were arranged in her colonial bouquet.

The groom was attended by his brother, H. C. Saunders. Reay Masters and A. Wiens acted as ushers.

The young couple assisted by Mrs. A. Masters, aunt of the groom, and Mrs. A. Wiens, sister of the bride, welcomed guests at a reception at the Seaman's Institute Hall. A three-tier wedding cake, decorated by Lewis Erb, was centred on the bride's table, flanked with pink tapers and vases of larkspur. A. Masters gave the bridal toast.

Following their honeymoon motor trip up-island, Mr. and Mrs. Saunders will return to the city to make their home. The bride traveled in a light grey suit, with red straw hat trimmed in red, and red accessories.

Summer Interlude

Mrs. J. B. Hill enjoys the summer sunshine on the rocks in front of her home at Prospect Lake. Mr. and Mrs. Hill only recently moved to the lake from Colquitz. They have named their new home "Knocktarna" and will live there all year round.

Personal Notes

Lieut. W. S. Blandy, R.C.N., is spending leave with his parents, Mr. and Mrs. R. F. Blandy, 2800 Somass Drive.

Mr. and Mrs. Basil Parker and their daughter, Lesley, arrived from Woking, England, to visit Miss Esther Gomme, of this city.

Mrs. Richard Rawlinson and her son John, are visiting in Seattle, the guests of Mr. and Mrs. George Bosenhart.

Major and Mrs. J. L. Howard, Joan Crescent, and Miss Marianne Fraser, have returned to the city following a three-week motor trip to San Diego, Calif.

Mr. R. D. Dowdall arrived in the city Monday from San Diego, Calif., to spend several days with his brother and sister-in-law, Mr. and Mrs. F. E. Dowall, Quadra Street.

Canon W. H. B. Scharpe is vacationing in Victoria, staying at the Empress Hotel. Canon Scharpe will spend several weeks in the city, returning to his home in Regina on Sept. 15.

Among guests attending the Saunders-Friesen nuptials Saturday were Mr. Henry Friesen and Miss Elsie Friesen, father and sister of the bride, and Mr. I. Esau, Sardis, B.C.; Mr. and Mrs. J. Saunders, Mr. and Mrs. Bud Syrotuck, Duncan, and Mrs. F. G. Saunders, New Westminster.

Miss Esther McCaig, 1765 Lulie Street, and her house guest, Mrs. Huntley Watt, returned by plane Monday from Seattle, where they visited Miss Ruth McCaig, and from Snoqualmie. Mrs. Watt, who has spent the past 10 days with Miss McCaig, left for Vancouver this afternoon en route to her home in Alberta.

Among special guests attending the wedding of Miss Frieda Louise James to Mr. Newal Taylor, which took place in Vancouver were Mrs. O. D. Burnham with her daughters Isobel and Lenora Lee, of Los Angeles, and Mr. W. Morrison, of Glasgow, Scotland.

In the city after a two-week motor trip to California, are Mr. and Mrs. P. E. Corcoran, Greatford Place, who have been visiting their son-in-law and daughter, Mr. and Mrs. W. G. Wilson, in Berkeley. Mrs. Wilson accompanied her parents and will attend the wedding of her brother, Mr. Alfred Corcoran to Miss Peggy MacDougall next week.

In compliment to Miss Joyce McAdam, a September bride-elect, Mrs. A. Rowa, 2836 Heath Drive entertained at a miscellaneous shower. Corsage bouquets were presented to the bride-elect, her mother, Mrs. W. McAdam, and to mother of the groom-elect, Mrs. S. Bell. Guests included Mesdames J. Horne, N. Chattel, D. Haslam, D. Snedden, M. Redfern, H. Heard, H. Newham, K. Nelson, Major, T. Moore, N. Stevens, Thompson, J. Ver Hagge, W. Bryson, Nichols, R. Banning, and Misses V. Stevens, J. Major, Patsy Moore, and Johnnie and Walter Bell.

Mrs. Dean Bragg and Mrs. Frank Crompton, entertained with a miscellaneous shower at the home of the former, 2611 Roseberry Avenue, to honor her sister, Miss June Howard, whose marriage takes place this week. A corsage bouquet of gardenias was presented to Miss Howard, while her mother, Mrs. C. C. Howard, received a corsage bouquet of pink rosebuds. A mauve and yellow container held gifts. Guests included Mrs. S. Hyland, Mrs. Dorothy McMasters, Mrs. L. Lovitt, Mrs. J. Fox, Mrs. W. Williams and Misses Allison Maude and Betty McAdie.

Sunday afternoon, at St. John's Church, the four-and-a-half-month-old daughter of Mr. and Mrs. Gerry Watson received the names Linda Louise. The baby's grandparents are Mr. and Mrs. Carleton W. Stocker, "Kirkwood Manor," Cedar Hill Road; Mrs. W. S. Watson, Richmond Court, and the late Mr. Watson, Saskatoon. Mrs. Ted Howe was godmother and Mr Thomas Clark the godfather. Following the service, 35 invited guests were entertained at the home of the parents. The rooms were decorated with gladioli and sweet peas and a christening cake centred the lace-covered table from which tea was served.

Mrs. Alice Kimmitt, president of the Victoria Soroptimist Club, was hostess Monday evening at her home in the Waldron Apartments, in honor of Miss S. Calderwood, a visitor from Inverness, Scotland. Other guests, all members of Soroptimist Clubs in Victoria and other points in Canada were Mrs. Lydia Lillico, Vancouver; Miss Catrien Meunwenoord, Mrs. Belle Cassidy, Miss Marjorie Black and Miss Maud Adams, Calgary; Miss K. Candy, Edmonton; Mrs. Alice Robertson, Mrs. Sarah McMartin, Mrs. Clarke, Mrs. Ruth Greenslade, Misses Marion E. Storey, Margaret Cranston, Lucy Bridger, Dora Aitkens and Ella Walker, Victoria.

In honor of Miss Tannis Martin, a September bride-elect, a miscellaneous shower was given by Mrs. E. Macdonald and Miss Flora Macdonald at 1320 Balmoral Road on Saturday night. A gardenia corsage bouquet, surrounded by salpiglossis, was presented to the guest of honor, red and white carnations to her mother, Mrs. W. Martin, and pink and white carnations to the groom-elect's mother, Mrs. E. E. Warburton. A miniature red schoolhouse contained the gifts. During the evening games were played, winners being Mesdames Warburton, D. Macdonald, J. Robinson, Miss Martin and Miss C. Hughes. Other guests were Mesdames C. Hockens, J. Smith, E. Macdonald and Miss E. Warburton.

Mrs. Archie Wills was hostess today at a trousseau tea to honor her daughter Miss Eileen Wills, whose marriage to Mr. David Wilson will take place Aug. 29. Reception rooms at the Wills home, 1231 Fairfield Road, were attractive with arrangements of gladioli, lilies and snapdragons. Refreshments were served from a table covered with Venetian lace cutwork cloth, and centred with a low arrangement of white gladioli. Receiving guests with the hostess was Mrs. Thomas Wilson, mother of the groom-elect. Others assisting were: Mrs. Herbert Dawson, Mrs. James Cameron, Mrs. Stan Young, Mrs E. C. Wilderspin, Mrs. Ken Wills, and Misses Amy Wills, Lois Young, Irene Wilson, Olive Cameron, Jean Wills and Dorothy Wills.

Honoring Mr. and Mrs. A. F. Bayles on the occasion of their 25th wedding anniversary friends made a surprise visit to their home, 800 Island Highway, Langford, on Sunday evening. Musical selections and community singing were enjoyed during the evening with Norton Welch at the piano. Later a delicious supper was served by Miss E. Urvold, R.N., Miss Beth Saunders, Messrs. Rodney and Ted Bayles from a table centred with a decorated cake, suitably inscribed. Other visitors who attended the party were Mr. and Mrs. R. E. Bayles, Mr. and Mrs. Oliver, New Westminster; Mr. and Mrs. A. N. Brown, Mr. and Mrs. H. W. McKenzie, Mr. and Mrs. H. A. Hincks, Messrs. Douglas Chalklin, Toronto, and Richard Gilbert.

Mr. and Mrs. A. F. Nation, Mrs. Robert Cheyne and Mr. L. C. Baird, of Victoria, have been recent visitors at Qualicum Beach Hotel. Vancouverites vacationing there include Mr. R. C. Grisdale, Miss Freda Edgett, Mrs. Dan McLean, Miss Mary McLean, Mrs. B. Dalgleish and Mrs. M. Davies. Other guests are Mr. W. A. Howard, Calgary; Mr. B. D. Millidge and Miss Patricia Millidge, Winnipeg; Mr. and Mrs. W. D. Rourke, Mr. and Mrs. Walter Wills, Mr. and Mrs. H. J. Tuckett, Mr. and Mrs. Earl Connor, Mr. and Mrs. T. C. Bingham and Mr. and Mrs. J. A. Duncan, all of Seattle; Misses E. Murphy and Miss V. Smith, Portland; Mr. and Mrs. E. A. Breckenfeld, Berkeley, California; Mr. and Mrs. J. T. Alm, Chico, Calif.; Mr. and Mrs. E. B. Bishop, Orland, Calif.; Mr. and Mrs. C. E. Weaver, Kansas City and Mrs. and Mrs. E. E. Allison, Kansas City.

Chicken De Luxe Nutritional Dish

De luxe chicken pie is a treat, besides containing proper nutrition. Use a four to five-pound fowl, cut in pieces, ¼ cup celery leaves, 1 bay leaf, 2 whole cloves, 12 small onions, 1¼ teaspoons salt, 4 tablespoons chicken fat or other fat, 4 tablespoons flour, 1 tablespoon lemon juice, 1 tablespoon chopped parsley, parsley biscuits.

Cover fowl with boiling water; add celery leaves and spices. Simmer, covered, two hours, or until tender, adding onions and salt when nearly done. Remove chicken and onions from stock. Cut chicken from bones in large pieces. Boil down stock until rich in flavor. Melt fat in saucepan; add flour and stir to a smooth paste. Add 3 cups of the stock gradually and cook until mixture is thickened, stirring constantly. Add lemon juice, parsley, chicken and onions. Add salt and pepper to taste. Turn mixture into 10x6x2-inch baking pan and cover with parsley biscuits, cut in star shape. Bake in hot oven (450 degrees F.) 15 to 30 minutes.

Parsley biscuit top—Mix half recipe of baking powder biscuit dough. Add 1 tablespoon well-minced parsley to flour mixture. Roll dough 1-3 inch thick and cut with small floured cutter in star shapes. Place these on special chicken pie mixture and bake in hot oven (450 degrees F.) 15 to 30 minutes. Biscuits must be near the top of baking dish to brown well.

"SALADA" TEA
Just try it

Let's Eat!

Soup Garnishers—Grated carrots, snippets of bacon, chopped hard-cooked egg or crisp bread crumbs with melted butter added, then toasted. With these easy to obtain garnishes cream soups are definitely appetizing.

Broiled Tomatoes—Slice unpeeled tomatoes fairly thick, dust with salt, pepper and sweet basil. Dip in egg and crumbs and fry.

Ham Spread—Combine 1 cup ground cooked ham or spiced pork, ½ cup finely chopped celery, 2 tablespoons cream and ¼ teaspoon each ground cloves and mace. Garnish with parsley

Baked Oranges—Four oranges, 4 tablespoons honey, 4 teaspoons butter. Slightly grate skins of oranges; drop into boiling water to cover; boil 25 minutes; set aside to cool in liquid. When cool, cut slice of blossom end; remove white core. Force 1 tablespoon honey and 1 teaspoon butter into centre of each orange; place in baking dish, fill 2-3 full with water; cover; bake in moderate oven 1½ hours. Serve with orange sauce.

Orange Sauce—Mix ¾ cup liquid from baking dish, ¼ cup orange juice and 1 tablespoon cornstarch; cook over medium heat until thickened, stirring constantly.

Lemon Chiffon Pudding — Five tablespoons sifted all-purpose flour, 1 cup sugar, 3 tablespoons butter, 3 eggs, separated, 1 cup milk, ¼ cup lemon juice, ¼ teaspoon lemon rind. Mix flour and sugar, cream together butter and flour mixture. Beat egg yolks until thick and lemon colored. Add yolks and milk. Gradually add lemon juice and rind. Beat egg whites until stiff but not dry; fold in carefully. Pour into greased baking dish; place in pan with one-inch hot water; bake in moderate oven (350 F.) 35 minutes.

Sweet-Tooth Treats—Drop a little honey, syrup, brown sugar or canned fruit bits into cups, fill with custard, then bake. Or before baking, mix strained prunes or cracker crumbs into custard.

Tricky—Vegetable oil or vegetable shortening can be used over and over for frying—that's real economy. Be sure to strain it after each frying. Cool hot fat a little, then pour it through several layers of cheesecloth fastened loosely with spring clothes pins over the top of clean container.

Fresh—To keep a layer cake fresh when it's not to be eaten all at one time, cut the cake in half; then cut slices straight across from the centre and divide into serving size pieces. Press remaining halves together like whole cake. Store in a covered container in a cool place —or wrap in waxed paper.

Raisin Pie Saves Sugar Supply

Delightful sugar-saver—raisin coffee meringue pie.

You'll welcome this sugar-easy pie with a different flavor. The raisins are "plumped" in hot coffee. The natural sugar in the raisins cuts down on the other sugar in the recipe.

RAISIN PIE

One and one-half cups raisins, 1½ cups hot coffee, 3 tablespoons fortified margarine, 3 tablespoons flour, 2 egg yolks, ¼ cup sugar, ⅛ teaspoon salt, the whites of two eggs and 2 tablespoons sugar.

Combine raisins with hot coffee. Cover and cook about 10 minutes, until raisins are plump.

Melt margarine, stir in flour, and add small amount of liquid in which raisins have been cooked. Stir until smooth. Add remaining liquid and raisins and stir over low heat until mixture thickens.

Beat egg yolks slightly; stir in ¼ cup sugar and salt. Add to first mixture and continue stirring over heat until sugar is completely dissolved. Pour into baked pie shell.

Beat egg whites, fold in remaining sugar, pile in ring on top of filling, and bake in slow oven (325 degrees F.) about 10 minutes, until meringue is slightly brown.

Serve hot or cold.

Here's a good solution to the "cookie" problem when sugar is so scarce. Note also that it requires no baking.

Social Situations

Situation: As a guest in a hotel, you leave an early morning call.

Wrong Way: Feel that you can make as much noise as you wish in getting out of the hotel.

Right Way: In deference to those in rooms near you who are still sleeping, make your leave-taking as quiet as possible.

Dorothy Dix

Dear Dorothy Dix—Do you think that a man who works long hours every day on a heavy job should be expected to do all the marketing as he comes home from work? My wife's excuse for not doing the housekeeping is that seeing raw food takes away her appetite.

HEN'PECKED MAN.

Answer—Unless your wife is a bedridden invalid, there is no excuse whatever for her not doing the marketing as well as the cooking, and you should force her to do her part in the domestic partnership. Anyone is lucky these days to get a look at raw food.

Esquimalt Council Discusses Rails, Vending Machines, Roads

Disposition of streetcar rails, final passage of the automatic vending machine prohibition by-law and request for the reconditioning of portions of Constance Avenue were discussed at the meeting of the Esquimalt municipal council, Monday night.

A letter was read from the Capital Iron & Metals Ltd. in which the company offered Esquimalt full market value for the rails or any portion of them. It stated they had full equipment to carry out removal of the rails. The matter was tabled.

"A new committee must be struck to deal with the question," Reeve A. I. Thomas told council. "I don't want to see Esquimalt jump ahead of Oak Bay, Saanich or the city in the matter, if the four municipalities can get together on the removal of the rails."

The automatic vending machine by-law was given its final passage, and prohibits use of an automatic machine for the sale of confectionery, stationery, tobacco or any other goods, with the exception of stamps.

Pinball machines are also prohibited under the by-law, which provides a maximum fine of $50 for infractions.

"Consideration for the pedestrian," was the plea of Mrs. F. A. Browne, in her letter to council on the condition of a portion of Constance Avenue north from Astle Avenue.

"The road was washed out on two occasions and it is time it was put in condition," she wrote. "It is a menace to pedestrians, especially since there are no lights in the section."

The letter was referred to the superintendent of public works.

Three Town-Planning Commission recommendations were endorsed by council. Application to convert a garage into living quarters, at Fraser and Bewdley, was unanimously rejected. Application from Charles Farrant to sub-divide property situated on Saxe Pt. Park was also rejected.

The commission received an application for construction of a $15,000 dwelling on property off Armit Road. The application called for a permit to construct part of the dwelling at a cost of $5,000 with completion to be made as soon as purchase of materials could be made normally. Plans for the temporary structure were submitted.

The commission suggested that council request an outline of the plan of the proposed completed structure, with a permit to be granted following submission of plans to the building inspector.

A previous motion for the obtaining of a cab for a municipal truck was rescinded, and a new motion calling for a purchase of a factory-made cab was passed.

A letter from Mrs. W. J. Perry complaining of the dust nuisance on Greenwood Avenue was referred to the superintendent of works. Councillor Alex Speirs was named Esquimalt representative on the Citizens' Rehabilitation Council. Grant of $50 was made the Salvation Army. Refund of $250 bond on property at Lang Cove was made to J. E. Downey.

No Football This Fall As Bullen Field Repaired

A no-football season this autumn at the Bullen Park playing field was foreseen at Esquimalt Municipal Council meeting Monday night, when council decided to get a report on the condition of the field with a view to using funds marked in the estimates, for a complete overhauling.

"There is a sand spot in the centre of the field which renders the field unfit for play," Reeve A. I. Thomas said as he recommended that the work be undertaken without further delay. "The condition of the field will not allow football play there this fall."

E. Fulcher, municipal superintendent of works, was instructed to report on the condition of the field and work required on it. Councillor G. V. Bishop, chairman of the parks committee, said the field had become so bad that play was impossible. Councillor Alex Speirs, a former football player, seconded Reeve Thomas' recommendation for speed in the matter.

"We may plow up the whole field," Reeve Thomas said today.

To Start Lifting Streetcar Tracks

First street-car tracks to be taken up since the granting of the franchise to the B.C. Electric Railway Company will be on Henry Street, it was decided at Monday's City Council meeting.

There, it was decided 350 feet of double track will be taken up and the street improved at an estimated cost of $1,300.

Other streets in Victoria West should also be improved as soon as possible the public works committee told the council, as streetcars have been discontinued there entirely. The Henry Street project is in the nature of an experiment to ascertain costs of track removal.

OREGON COUPLE ADOPTS FAMILY—Elmo Wehnert, 49, and his wife, Gertrude, from Blodgett, Ore., get acquainted with the three children (left to right), Erhard Gehrman, Rosita Annies and Ursula Geromin, whom they have adopted. Couple met the youngsters at LaGuardia Field, New York, for the first time after children had been flown from Denmark, where they were born. Ages range from 16 to 10 months.

Buy Or Not To Buy Worries Aldermen Lacking Big Truck

City aldermen worried at Monday's meeting whether or not to spend $5,700 on a trailer to move heavy equipment when it was not known whether any of the city-owned trucks are powerful enough to pull the trailer, once purchased.

The public works committee asked that the trailer be purchased immediately, to be used jointly in their department and the waterworks department. Ald. J. D. Hunter, chairman, said that the price of the trailer would go up several hundred dollars in the next few months if the opportunity was not seized now. He also pointed out the difficulty of hiring such a trailer to move heavy equipment, often resulting in several days loss of time.

Ald. F. N. Cabeldu, chairman of the waterworks committee, favored buying the trailer but queried if any of the light city trucks would move the heavy vehicle. City Engineer G. M. Irwin said he didn't know, but he hoped so.

Ald. Cabeldu then wanted to know why not buy a heavy truck instead of the $1,800 and $1,768 two-ton trucks approved a few minutes previously. But Mr. Irwin said he needed the light trucks too.

Ald. Edward Williams interjected that he found the whole discussion quite confusing and could see little point in buying a trailer if there was no motive power to move it available.

Finally, after more cursory discussion the council decided to leave the matter to the discretion of the two committees whether the trailer could be moved, and if not, should it be purchased.

Ambassador Remarries

EDINBURGH, Scotland (Reuter)—Lord Inverchapel, British Ambassador in Washington, remarried here today his former wife Maria Teresa Diaz Salas, whom he divorced in 1945 when he was British Ambassador to Russia.

Sixty-five-year-old Lord Inverchapel is 29 years older than his wife, who comes of a wealthy Chilean family. At the time of her marriage in April, 1929, when her husband was Archibald Clarke-Kerr, British minister to Chile, she was known as "the most beautiful girl in Santiago."

Steelworkers Plan Vancouver Strike

VANCOUVER (CP) — Picket captains were chosen at a membership meeting of the United Steelworkers of America (C.I.O.-C.C.L.) here Monday night in preparation of the strike against seven Vancouver plants, slated to begin Thursday morning.

Pen Baskin, international representative, told the union operators' offer of 6 cents an hour wage increase plus a cost-of-living bonus of 4 cents had been rejected by 95 per cent in secret balloting.

The union is asking an increase of 12½ cents an hour, plus increased union security in some of the affected plants.

The seven plants are: Dominion Bridge Co., Vancouver Machinery Depot, Vancouver Iron Works, Vancouver Engineering Works, Opsal Steel Co., Ross & Howard Iron Works, and Richards Engineering Co.

Fruit Breeding Long-Term Program, Says Specialist

Scientists engaged in fruit breeding in Washington and Oregon consider it a long term program, according to E. R. Hall, fruit specialist and assistant superintendent at the Dominion Experimental Station, Saanichton, on his return from attending the 26th annual meeting of the Northwest Association of Horticulturists, Entomologists and Plant Pathologists held recently in Yakima, Wash. Each state, Mr. Hall said, has its own breeding centres, where thousands of seedlings are processed before one is finally found that meets exacting market requirements combined with necessary disease resistance.

The HEPP meetings (horticulturists, entomologists and plant pathologists) annually serve as a clearing house for information on horticultural problems and are attended by many B.C. and Dominion officals of the department of agriculture and by similar workers in Washington and Oregon. One problem that is causing headaches to fruit men on both sides of the border, is the complications that follow the use of D.D.T. in the control of coddling moth. Apparently, the new spray controls the codling moth, but leaves other pests as mites and wooly aphis free to go about their own destructive business.

Before returning to Saanichton, Mr. Hall took the opportunity of seeing some of the small fruit breeding work being done at the agricultural experiment station at Vancouver, and at the Puyallup station, both in Washington.

MORE VARIETIES

Unlike B.C. growers who concentrate on one or two varieties without due regard to soil and climate conditons, berrymen in Washington and Oregon grow a larger number of varieties, each being adapted to specifc areas. The variety grown in greatest volume is the Marshall, in spite of the fact that it is very susceptible to a virus disease known as yellows. This disease is held in check to a certain extent by being propagated in isolated farms, Mr. Hall found.

At the South Oregon Agricultural Experiment Station at Medford, Mr. Hall was impressed with the large experimental plots almost exclusively devoted to pears. Here irrigation is used extensively and fertilizer is applied at rates considerably higher than commonly in use in B.C. In eastern Oregon at Hood River, another branch station experiments almost exclusively with apples, with particular attention being given to cultural and spray practices.

The Oregon State agricultural experiment station at Corvallis is the centre of intensive small fruit breeding in Oregon. Under the direction of George Waldo, large scale testing is being carried out with the various bramble species, as well as with raspberries and strawberries.

Breeding for resistance to the Red Stele disease in strawberries is an important project at Corvallis and officials there are cooperating closely with the Saanichton station in a combined breeding effort to fight the dreaded root rot that is playing havoc with strawberries on some of the heavier soils on both sides of the border.

GIVES HER BETTER THINGS TO BUY

THERE are new fabrics for hats and purses, new styles in shoes; variety in costume jewellery, modern gadgets for the kitchen, better foods, a range of new furniture . . . and behind all the goods in all the stores across the country are hundreds of businesses, large and small.

If there had been no money available, and no men of ability to turn it into factories and goods, there would be far fewer products on the shelves and counters, far less variety in price and style, far less *value* to be had for your purchasing dollar.

At The Bank of Nova Scotia we're proud of our share in the creation and expansion of business. Over $200,000,000 is invested in commercial loans, helping large companies and small bring you better and better things in Canada.

Let's do it together!

Cotton Nightgown Still Rates Whistle

The nightgown Gene Tierney wears for her role in Twentieth Century-Fox's "The Ghost and Mrs. Muir" is a far cry from the glamorous chiffon nightgown she wore in "Leave Her to Heaven," but it drew just as many whistles from the members of the crew working on the R. A. Dick story. Since she plays a demurely proper turn-of-the-century widow in her current role, Gene's "Mrs. Muir" nightie is ruffled and laced, outlining her neck. It is full gathered and hangs straight from the shoulder with no waist girdle to define her figure. But Gene still looked so femininely appealing in the quaint sleeping garment that the crew couldn't resist the wolf-whistle routine when she first appeared on "The Ghost and Mrs. Muir" set.

The film, which co-stars Gene with Rex Harrison and George Sanders, opens today at the Royal Theatre.

'Buffalo Bill' Seen In Technicolor

Twentieth Century's technicolor production "Buffalo Bill" comes to the screen of the Rio Theatre for three days. Joel McCrea, Linda Darnell and Maureen O'Hara are starred. In this thrilling production is seen the death fight of Buffalo Bill and Chief Yellow Hand of the Cheyennes, Custer's Last Stand avenged. Critics rate this as one of the most thrilling narratives of the west to come out of Hollywood.

ATLAS THEATRE

Lina Romay, the Latin charmer who got Gable for a moment in "Adventure" when Garson wasn't looking, now gets Mickey Rooney in "Love Laughs at Andy Hardy," new M-G-M Hardy family picture now on the Atlas screen.

Although she shares romantic honors with Bonita Granville and Dorothy Ford in the new film, it is Miss Romay who wins the irrepressible Andy in the final scenes.

Sultry Miss Romay is also given an opportunity to sing and to dance a rumba with Rooney. In this respect she draws upon the talent that first brought her to Hollywood attention when she was a featured singer with Xavier Cugat's band.

Where To Go Tonight

(As Advertised)

ATLAS—"Love Laughs at Andy Hardy," starring Mickey Rooney.

CAPITOL — "The Perils of Pauline," starring Betty Hutton and John Lund.

DOMINION — Nelson Eddy and Ilona Massey in "Northwest Outpost."

OAK BAY—Walter Pidgeon in "Holiday in Mexico."

PLAZA—"Ramrod," starring Joel McCrea and Veronica Lake.

RIO—Joel McCrea and Linda Darnell in "Buffalo Bill."

ROYAL—Gene Tierney and Rex Harrison in "The Ghost of Mrs. Muir."

YORK — "Rebecca," starring Joan Fontaine and Laurence Olivier

Schildkraut Makes Colorful Villain

Joseph Schildkraut, distinguished star of stage and screen is an actor in the old tradition. His portrait of a suave, political plotter in Republic's acton-filled musical drama, "Northwest Outpost," is a classic of its kind. The Nelson Eddy-Ilona Massey starrer is currently showing at the Dominion Theatre.

The son of the late Rudolph Schildkraut, a celebrated Viennese actor, he can speak with true authority about the stage.

During World War I, Schildkraut served in the Austrian army. In 1921, he came to the U.S. to star in the Theatre Guild production of "Liliom." He made his first picture, "Orphans of the Storm" with Lillian Gish.

TORQUAY—To cope with the 25,000 postcards a day which holiday makers are sending, postal authorities have installed a special post box.

"THE GHOST AND MRS. MUIR," which opens today at the Royal Theatre, finds Gene Tierney and Rex Harrison involved in one of the strangest romances ever filmed.

PLAZA THEATRE

Joe McCrea, something of a seasoned cowhand himself, put five experienced Utah cowpokes to shame while on location in Zion National Park, Utah, for "Ramrod," the new film at the Plaza Theatre through United Artists release.

McCrea was doing a scene with Veronica Lake just before the incident occurred. In the background were 700 head of cattle. One frightened calf broke away, ran toward the mouth of a canyon a mile away. For five minutes cowpokes and calf tore around, with tossed lassoes failing to hit the target.

McCrea jumped on his horse and joined the chase. He let go with his lasso, roped the calf and led him back to the herd.

CAPITOL THEATRE

Betty Hutton knocks herself out in putting across a song in a picture, but what the audience doesn't see is the damage the Blonde Bombshell does to her wardrobe.

To film a particularly violet routine while warbling a song for "The Perils of Pauline," Paramount's new technicolor production, the Incendiary Blonde wore out 10 pairs of specially made black silk hose. Her acrobatic gyrations included running, jumping, leaping and swinging on a backdrop. The fragile stockings kept breaking out at the knees.

"The Perils of Pauline" teams John Lund with Betty, who plays Pearl White.

OAK BAY THEATRE

Following in the footsteps of singing star Kathryn Grayson, who made her dancing debut in "Two Sisters from Boston," young Jane Powell, in addition to her singing, also bows as a dancer in her first M-G-M film, "Holiday in Mexico," now on the Oak Bay screen.

Others in the headline cast of "Holiday in Mexico" are Walter Pidgeon, playing an ambassador; Ilona Massey, Roddy McDowall, Jose Iturbi and Xavier Cugat and his band.

2 Stars Lined Up For Lead Role In 'All My Sons'

By BOB THOMAS

HOLLYWOOD (AP) — Burt Lancaster and Edmund O'Brien, two fair-haired boys at U-I, are lined up in competition for the lead role in "All My Sons," from the Pulitzer prize play of last season.

Both are vying for the role which Arthur Kennedy created on Broadway and it looks as though Burt is going to be the victor. Already set in the cast are Edward G. Roibnson and Mady Christians.

It is interesting to note that Burt made his screen debut and Eddie his postwar return to films in "The Killers," but they never appeared in a scene together.

IMPERSONATION

Joe E. Brown learned from the State Attorney's office in Chicago that a man who has been posing as his son for some time has been captured in Dallas. The impersonator has reportedly been bilking women in several states and was sought widely by the Federal Bureau of Investigation . . .

Irene Dunne is one actress who worries about what the critics write about her performances. Her last two films have been from the stage hits "Life With Father" and "I Remember Mama" and from now on she says "I'll only do original stories for the screen." She explained that it invites too much comparison to play a role already created by a stage actress . . .

Al Jolson got a sound roasting from topmost members of his profession at a stag "Roastmaster" dinner in his honor at the Friars Club.

Frank Sinatra claimed Al was a "Tribute to every clean-cut young American millionaire." Jack Benny, referring to his services as a radio guest star, said "I need Jolson like I need F. E. Boone."

Irving Berlin sang a special song and Bob Hope, George Jessel, Edgar Bergen and George Burns delivered other speeches.

The ageless (he says it's 59, but friends claim much higher) Jolson retaliated by singing four songs. Said he: "This is one thing Larry Parks had nothing to do with." Parks was not present.

Russia Threat To World Peace, Harriman Charges

SEATTLE (AP)—W. Averell Harriman, U.S. Secretary of Commerce, bluntly charged Monday night that Russia poses a threat to world peace, and warned that the democracies possess the means of atomic retaliation against potential aggressors.

In his first public attack against the Soviet Union, Harriman said that wherever there's dictatorship, whether it be under the guise of Communism or Fascism, there is a threat to the security and progress of free men."

(Harriman's speech was cleared in advance by the State Department at Washington.)

He termed the outgrowth of the Russian revolutionary program the "great issue of our times," and said no one can foretell its ultimate end.

"In this atomic age there is no protection against retaliation by air," the former Ambassador to Russia declared.

"Our ability to launch an immediate strong retaliation by air is the greatest possible deterrent against the use of military force by others.

"Our peaceful intentions are so clearly understood the world over that no man who has peaceful purposes fears the military strength of the United States."

YORK THEATRE

"Rebecca," currently at the York Theatre, was a winner of the Academy award and also the national critics' film poll. It tells the gripping and fear-laden story of a shy, unsophisticated second wife who returns to her husband's big English estate to find the unseen presence of the dead first wife seemingly hanging over her as a constant menace. The picture stars Lawrence Olivier, Joan Fontaine and C. Aubrey Smith.

Charges Of Conspiracy To Fix U.S. Tire Price Denied By Firms

NEW YORK (AP) — Federal charges that makers of 90 per cent of U.S. tires have conspired for 12 years to fix prices will be fought "to the limit," E. J. Thomas, president of the Goodyear Tire and Rubber Co., said here.

The criminal complaint naming 19 defendants was filed late Monday in federal district court for the southern district of New York. It quickly brought denials from the tire-makers, who said tire prices now are at or below prewar levels.

The action, Thomas said, "seems utterly preposterous."

William O'Neil, president of the General Tire and Rubber Co., said tires were selling 2.4 per cent below prewar levels and the suit "just doesn't make sense."

"On the basis of present living costs as compared with 1941 the price of tires is down almost 54 per cent," O'Neil said.

The criminal action against the tire-makers followed by a few hours the filing of a civil anti-trust action in federal district court in Los Angeles which William C. Dickson, chief of the west coast anti-trust division, said was to "make possible an early and substantial increase in color motion pictures for the public."

At Rochester, N.Y., Eastman's president, Thomas J. Hargrave, said the firm had no existing arrangement "by which Technicolor does or could control or monopolize the professional color motion picture field."

Technicolor made no comment immediately.

IN STEEL FIELD

A reply to the Federal Trade Commission's "cease and desist" order against steel-makers, whom it accused last week-end of conspiring to fix prices and stifle competition, came Monday night from Irving S. Olds, board chairman of the U.S. Steel Corp.

Contending the present pricing system in the industry had been evolved through 50 years "as a natural consequence of the fundamental economic and competitive conditions existing in that industry," Olds said adoption of the commission's pricing plan would cause "chaotic conditions" in industries consuming steel.

John F. Sonnett, assistant to the Attorney-General in charge of the anti-trust division, was in New York to confer with Mayor William O'Dwyer when the tire complaint was filed. He said it was not related to the Justice Department's current inquiry into possible conspiracies in the fields of housing, food and clothing.

Material Shortage Hampers Work On College Buildings

With Victoria College and schools scheduled to reopen in September everything was being done to complete unfinished work to buildings, which included improvements and renovations to a number of classrooms, Trustee M. P. Paine, chairman of the Buildings and Grounds Committee, told the members of the Greater Victoria School Board at a meeting Monday.

But Mr. Paine said much of the work which had been planned for the summer months would remain undone due to the shortage of materials which had hampered contractors.

The biology and chemistry buildings were expected to be ready for use for the opening of Victoria College on Sept. 22, he said, while the setting up of additional classrooms at seven schools in Greater Victoria would also be completed as soon as possible.

The board approved the transfers and redistribution of 32 teachers to city schools, as well as the resignation of four teachers.

The following appointments to the teaching staff of the Greater Victoria school system were approved by the board: Jack Spiller, Miss Corinne Leifer, Miss Mary G. Wilson, Miss June Mitchell, Miss Barbara Beale, Miss Betty M. Miles, Stanley Murphy, Miss Marian Gaudin.

Horace R. Dawson was appointed principal as from Sept. 1 at a salary to be set in accordance with the teacher's salary schedule. The appointment is probationary for one year.

The board also approved the appointment of Arthur D. W. Jones as vice-principal at Oaklands elementary school as from Sept. 1.

The reappointment of 12 married teachers on a temporary basis for one year raised the question of whether married women were increasing in numbers on the teaching staff of the Greater Victoria school system

But J. F. K. English, municipal inspector, said single women were gradually replacing married teachers every year. Preference was always given to an unmarried woman, he added, and this was why married teachers were appointed only on a temporary basis.

City Option On H.B.C. Land Expires

The option of "first refusal" on a block of land owned by the Hudson's Bay Company in the Uplands district has now run out City Council was informed Monday and the company wishes to sell the land for the site of a radio power transmitter.

The company queried whether erection of a tower on the land would impede the development of the airpark on the city-owned property nearby.

Ald. B. J. Gadsden said that as the rezoning of the Gordon Head area for airpark purposes was proceeding satisfactorily he wishes the whole matter left in the hands of the aviation committee. He indicated that the radio mast would be a definite hindrance to the airpark and should not be permitted.

Council Discusses Proposal For Free Parking Wednesdays

Ald. B. J. Gadsden, at Monday's City Council meeting, asked that the use of parking meters be eliminated Wednesday afternoons as the city streets were virtually empty at this time and many who had to come to town protested. Mayor Percy George agreed with his statements.

However, Ald. J. D. Hunter, chairman of the public works committee, responsible for the parking meters insisted it would mean changing the plates on each meter and although the stores were closed many other offices remained open. He said no other city made the Wednesday afternoon exemption.

Ald. Edward Williams then asked that the meters not start operation until 9 o'clock, which Ald. D. D. McTavish supported on the grounds that it might give many stores an opportunity to get their deliveries made during the hour between eight and nine.

Ald. H. M. Diggon insisted the reason the streets were bare of cars Wednesday afternoons was because of parking meters, and this proved their worth.

The whole question was referred to the committee for full consideration.

Provincial, Civic Leaders Confer With C.P.R. Heads At Luncheon

W. M. Neal, president of the C.P.R., chats with his host, Mayor Percy George, and other political leaders prior to going into the luncheon tendered the C.P.R. directors by the city. Left to right are R. W. Mayhew, M.P., Premier John Hart, Mr. Neal, Mayor George and Hon. Herbert Anscomb, Minister of Finance.

The C.P.R.'s reconstruction program for the Dominion of Canada calls for an expenditure of $300,000,000, W. M. Neal, president of the corporation, told 57 guests at a civic luncheon in the Empress Hotel Monday prior to embarking on the boat for his return to eastern Canada.

He said that already the company had started its rehabilitation program for the postwar period and the money allocated was being used up "almost as fast as the British loan in the United States."

The money is to be spent on projects detailed before the House of Commons reconstruction committee, including new steamship services, bringing rolling stocks up-to-date, such as the dieselization of the E. & N., and improving hotel and ticket office facilities.

In welcoming the 14-man C.P.R. party to the city Mayor Percy George made a plea for the rehabilitation and expansion of the wharf at Victoria. He said it would be happy news when the C.P.R. announces it will start the expansion to give tourists and citizens better facilities on entrance to Victoria.

However, Mr. Neal indicated that with the dieselization of the E. & N. to cost $1,750,000, and the new ticket office, improved wharfage facilities would have to be left until "some time in the future."

CONSIDER SUGGESTIONS

He said the main object of the trip was to consult with the businessmen in each community and get first-hand impressions on how the C.P.R. service can be improved. "We will give full consideration to any suggestions, and are anxious to receive well-founded complaints as well as bouquets on our service," he declared.

In planning expansion he said the requirements of each individual community had to be balanced with the needs of others. He stressed that all moneys used for the expansion program have to be earned by the railroad, as it is not permitted to sell stock. "Railways are not big dividend makers," he told the group, "and investors are not anxious to participate in anything giving poor returns."

He said his company had unlimited confidence in Canada. "This country has barely got started," he declared. In making a gamble on expansion he asserted, "We believe any well-considered action will prove to have been justified."

Speaking of B.C. he said he thought he had traveled the length and breadth of the province more than most Victorians. "It has a magnificent future," he declared. "All we need is people and they must come. The trend of public opinion is changing and now the door is open."

Mr. Neal said he felt the spur of immigration to development had been lacking since World War I, and now the main problem is to get shipping to bring the selected immigrants into the country.

Speaking of Victoria, he commented that since his last visit here two years ago he had seen more evidence of growth than ever before in a like space of time. "We are looking forward to a time when the development on Vancouver Island will be so great that the whole island will come within the purview of Greaater Victoria," he said.

Council Balks At Hiring More Men For Parking Meters

The recommendation from the public works committee that both a traffic engineer and a supervisor for parking meters be hired raised a small storm at Monday's City Council meeting, with Ald. Edward Williams querying if there would be enough revenue from the meters to bear the cost of all these extra salaries and still pay for the machines.

He wondered if one man could not fill both jobs, and Mayor Percy George admitted he had not been informed of the need for a supervisor for the meters in addition to the two men now employed in servicing them.

Ald. J. D. Hunter, chairman of the works committee, said it was possible the two jobs might be combined and he asked that the supervisor be appointed immediately on a temporary capacity while the committee give further consideration to the hiring of the traffic engineer, whose duties would be more extensive.

He stressed that the traffic situation in Victoria is getting steadily worse and some definite action to plan loading and bus zones as well as control the parking meters must be taken.

Ald. B. J. Gadsden wondered if one of the police officers could not take on the job in addition to his police duties, but Ald. H. M. Diggon insisted a traffic engineer was not a policeman.

Ald. Diggon suggested that the whole question of traffic control be shifted from the public works committee, which has many other duties, to the transportation committee which deals with transit problems, including routing and bus zones.

Ald. R. A. C. Dewar asked that the whole question be referred to the transportation and public works committees jointly, and this was done.

Provide Medical Assistance For College Students

Victoria College students will be given the same medical assistance provided to all schools in Greater Victoria as soon as a satisfactory plan is drawn up with health authorities, it was decided by the Greater Victoria School Board at a meeting Monday.

The decision to grant students medical assistance was made following a request from Victoria College Council for the medical examinations of every student, as well as medical facilities provided to local schools.

Mrs. H. A. Beckwith said she was anxious to arrange for a medical service for the college as soon as possible. The matter was left in her hands to make arrangements with three municipal doctors.

The college council also requested the use of a plot of ground as a playing field which has been acquired by the school board from the V.L.A. The matter was referred to the building and grounds committee.

Williams Protests Additional Meters; Council Defers Action On New Purchase

The addition of 200 meters to city streets was tabled at Monday's City Council meeting after Ald. Edward Williams protested strongly against spreading the metered area out too far. He expressed the fear that much business would be lost in the downtown commercial areas if the metered streets extended too far.

The recommendation of the public works committee for the extension of the meters and also for the further elimination of angle parking from downtown areas was sent back to the committee for further consideration, while other council members checked the streets on which the proposed changes are to be made.

Ald. H. M. Diggon, a member of the public works committee, insisted that the parking meter area did not extend far enough, and that to keep it too restricted could act as a boomerang.

At the same time Ald. J. D. Hunter, chairman of the committee, said there will be no more loading zones granted until it has been seen how the 15-minute free parking granted commercial vehicles for loading and unloading works out. He expressed the hope that some of the present loading zones could be eliminated.

The streets on which it was suggested the additional 200 meters should be placed were: Blanshard Street between Pandora and Courtney; Yates between Blanshard and Quadra; Fort Street between Blanshard and Quadra; Courtney Street between Government and Gordon; Gordon Street between Humboldt and Courtney; and Humboldt Street between Government and Douglas.

PARALLEL PARKING

The other recommendation tabled was that all parking in the city limits be parallel except where specially designated an angle parking zone. Only angle parking proposed was on the west side of Douglas Street between Broughton and Humboldt, and on the north side of Yates Street below Government Street, where marked.

Ald. Hunter took exception to his committee's report in proposing parallel parking on Gordon Street between Courtney and Humboldt, by the Union Club. He said he did not think parallel parking on the steep hill was as safe as angle parking.

Hour parking zones were set on both sides of Johnson Street, between Blanshard and Quadra Streets; both sides of View Street between Blanshard and Quadra Streets; and both sides of Pandora Avenue between Blanshard and Quadra Streets.

Another change in traffic regulations was making Courtney Street between Government and Wharf Streets a one-way street, with traffic moving from east to west. All parking, both sides of the street, is to be abolished, and the taxi stand to the south of the Post Office is to be eliminated by Dec. 31 of this year. In addition 20 feet on Wharf Street, east of the most southerly doorway of the Post Office building is to be reserved as a loading zone for postal authorities.

City Council Briefs

City Council Monday decided to purchase a sound projector for use of the police department at a cost of $250. The item was not contained in the estimates, but Ald. B. J. Gadsden pointed out the regular price of such a projector was $800, and it is needed in traffic instruction work.

City Council endorsed the request of the pensioners' association that the Dominion Government be asked to raise the "burned out" pension from $30 to $50 per month for single men and from $60 to $100 per month for married men.

$100 cheque donated to the city by the Selkirk Lumber Co. to commemorate the attaining of Dominion status by India has been turned over to the Mayor's Fund for parcels for Britain at the suggestion of Mayor Percy George.

The public library board was given $2,400 to provide for equalization of cost-of-living bonuses at Monday's City Council meeting.

City Council Monday decided to send A. G. Joyce, appraiser, and J. W. Oosterink, building inspector, to the convention of the Society of Residential Appraisers in Portland Sept. 12 and 13.

The City Council has asked the provincial lands department not to grant foreshore rights to tug boat operators using 517 Selkirk Avenue as a base, supporting the petition of C. Elliott and 32 others. The council, on recommendation of the lands, zoning and housing committee Monday, also asked that the city be notified of any future application for foreshore rights within the city before they are granted.

City Council approved sale of one parcel of city-owned land to a veteran for $80, and of seven parcels to civilians for $8,392.

Diggon-Hibben Ltd. were awarded the tender to print and bind the 1947 voters' lists at a cost of 6¾ cents per name, which came to an estimated $1,147.50 for the entire job. The Colonist was the only other firm to tender, at a cost of 7 cents per name.

Motion Of Regret At McGeer's Death

The City Council Monday passed a standing motion of deep regret at the "sudden and untimely death on Monday, Aug. 11, of Hon. G. G. McGeer, mayor of Vancouver."

The council expressed its "high admiration of the dominating yet attractive personality and great mental powers which he possessed, his marked ability as a leader, lawyer, King's Counsel, orator, and debater, and his colorful and turbulent, yet outstanding political career over the past 30 years."

Sincere sympathy was extended to those bereaved, and copies of the resolution will be sent to Mrs. McGeer and the Vancouver City Council.

B.C.E.R. Asks Board To Aid Re-training Of Streetcar Men

The Greater Victoria School Boarr at Monday's meeting was asked by the B.C. Electric Railway Co. Ltd. for assistance in providing educational facilities for displaced streetcar personnel who desired to train as garage mechanics.

In a letter to the board, R. B. Mathews, executive assistance to the manager, said when motor buses replaced the present street railway system arrangements would have to be made to find employment for personnel trained in looking after railway equipment.

Many of these, he pointed out, were anxious and prepared to train as mechanics and this necessitated the inauguration of night schools for the training of these men. The B.C.E.R. estimated that between 15 to 20 employees would attend special classes. These would be paid by the company for their time spent attending night school.

The board was asked for assistance in providing qualified instructors as well as school accommodations.

The matter was referred to the Educational Committee for approval and to make the necessary arrangements with the B.C.E.R.

BLACKHEADS

Get two ounces of peroxine powder from your druggist. Sprinkle on a hot, wet cloth and apply to the face gently. Every blackhead will be dissolved. The one safe, sure and simple way to remove blackheads.

INCORPORATED 2ND MAY 1670

New Murderers' Row

Willard Marshall, Johnny Mize and Walker Cooper are powering the Polo Grounders into contention as probable replacements to the famed murderers' row of the New York Yankees of years gone by. The trio have already broken a number of National League marks, and with over a month to go in the season may eclipse further records. Mize leads the loop in home runs and runs batted in.

Dodgers Knock Over Top Cardinal Pitchers

Brooklyn Dodgers, fresh from two triumphs over St. Louis Cardinals, hope to administer the "coup de grace" today to the pennant ambitions of the Red Birds in the third game of a four-game series that no longer is "crucial" as far as the National League-leading Brooks are concerned.

Having blasted the Cards' two top southpaws, Howie Pollet and Harry (the Cat) Brecheen, 7 to 5 and 12 to 3 in a day-night doubleheader at Ebbets Field yesterday to stretch their lead to 6½ games, the Dodgers now are out of the danger zone in the important set.

A total of 66,504 fans, watched Vic Lombardi and Harry Taylor stop the Red Birds.

Lombardi, who pitched despite the fact that only hours earlier his wife underwent an emergency operation for a burst appendix, allowed eight hits before tiring and being relieved in the ninth of the opener.

Lombardi came back in the night affair with a three-inning one-hit relief job after Taylor retired from the game because of a strained ligament in his right elbow.

Lombardi's battery mate, Bruce Edwards, was the batting star of the opener. The stocky receiver slammed two tremendous triples to drive in three runs and scored once himself. He also chipped in with a double and single in the aftermath.

ROBINSON HOMERS

The Brooks jumped on Pollet for two runs in the first on Jackie Robinson's ninth homer, a walk and Edwards' first triple.

Pollet blew up in the fifth, the Dodgers pushing five runs in on two walks, two singles, Edwards' second three-base poke and a fly out to sew up the game.

Another five-run uprising sunk the Cards in the nightcap. Entering the third inning on the long end of a 2 to 1 count, the Dodgers pounced on Brecheen for a quintet of markers.

The second game was a play-off of the disputed July 20 game which the Dodgers won in the ninth, 3 to 2, only to have National League president Ford Frick uphold the St. Louis protest.

The twin-bill was the only regular action in either the National or American Leagues.

A number of exhibition games were played. The New York Giants downed the American League's pace-setting New York Yankees, 4 to at New York, the Washington Senators blanked the National's tail-end Philadelphia Phillies, 3 to 0 at Washington and the Pittsburgh Pirates eked out a 7 to 6 victory over the Eastern League's Albany Senators at Albany.

NATIONAL LEAGUE

First Game—	R.	H.	E.
St. Louis	5	8	0
Brooklyn	7	8	1

Batteries—Pollet, Burkhart (5), Wilks (7) and Rice, Wilber (7); Lombardi, Casey (9) and Edwards.

Second—			
St. Louis	3	6	1
Brooklyn	12	14	1

Batteries—Brecheen, Munger (3), Wilks (5), Burkhart (7) and Rice; Garagiola (3), Taylor, Lombardi (7) and Edwards.

EXHIBITION

Phillies (N.L.)	0	6	0
Senators (A.L.)	3	7	1

Batteries—Schmidt, Chapman (8) and Lakeman, Bengough (8); Cary, Hudson (7) and Mancuso.

New York (N.L.)	4	7	0
New York (A.L.)	1	6	0

Batteries—Jones and Livingston; Wensloff, Gumpert (6), D. Johnson (9) and Robinson.

Orders Replay Of Dodger-Philly Tilt

NEW YORK (AP)—President Ford Frick of the National League today ordered Sunday's second game between Brooklyn Dodgers and Philadelphia Phillies at Shibe Park be replayed as a "suspended game," starting at the last half of the seventh inning with the Dodgers leading 5 to 4.

Seething after receiving a report from his umpires, Frick called the game, halted by the 7 o'clock Pennsylvania curfew, a "farcial exhibition which was a disgrace to baseball and a complete travesty of all the rules of sportsmanship."

Frick was angered by the umpires' report that the Phillies deliberately stalled for time after the Dodgers scored what might have been the winning run in the first half of the seventh.

Bays Win First Game Of Women's City Softball Playoffs

Hudson's Bay, senior A women's softball champs captured the first game in the best-of-three series for the city championship when they took the measure, 17 to 9, of Don Harvey's, senior B winners, in the first game of the playdowns. Second game will be played tonight at 6.30

Bays trailed 7 to 6 in the fourth despite the fact they scored four runs in the second and a brace in the third. However, nine big runs in the fourth and another pair in the fifth decided the issue.

Losers drove Patterson from the hill in the third, scoring three in the first, a singleton in the second, and three more in the third. Hilda Post was called to the mound for Bays and limited the Harvey girls to a pair on runs in the sixth in winning.

Flo Kennedy banged out four straight hits while Vickie Murray picked up a home run and two singles to pace the Bays' attack.

Boxla League Title At Stake Tonight; Playoffs Set

Canadian Legion and Foul Bay, season-long rivals of the gutted-stick pastime, will renew their bitter rivalry at Stevenson Memorial Park tonight at 6.30 with the league title going to the winner.

The sudden-death game was deemed necessary when the two clubs finished in a tie for top place in the league. Winners of this game will open the semifinal series against J.B.A.A. Thursday.

Schedule follows:

Aug. 21—Winner of Foul Bay-Legion vs. James Bay.

Aug. 22—Losers vs. Jokers.

Aug. 23—Winners vs. James Bay.

Aug. 25—Losers vs. Jokers.

Aug. 26—Third game of first series.

Aug. 27—Third game of second series

Ontario Bowlers Lose At Vancouver

VANCOUVER (CP)—Six touring Ontario lawn bowling rinks dropped their third match in eight starts against western Canadian quarter here yesterday as British Columbia rinks defeated them 136 points to 100. The Ontario team had previously chalked up five victories in seven matches against prairie teams. The Ontario rinks will play at New Westminster, B.C., tomorrow and at Victoria Thursday and Friday.

To Limit Coast Soccer League To Five Teams

Directors of the Pacific Coast Soccer League decided to limit the loop to five clubs for the 1947-48 season. Decision was reached at a meeting of the league at Vancouver over the week-end. Last year the league held six squads.

Next Saturday the annual meeting of the Coast League will be held in the mainland city, when officials will lay final plans for the league opening and drawing-up of the schedule.

Loop will be composed of the same teams that participated last season with the exception of Kerrisdale, which always had a difficulty in fielding a top-notch squad. St. Andrews, North Shore and St. Saviours from the mainland and Nanaimo and the United will make up the league.

LOCAL TEAMS WITHDRAW

Applications from teams in the Victoria District League were withdrawn when the decision was reached to have the United squad represent the city. Applications were recently turned down from Collingwood, Vancouver United and U.B.C.

It is expected that the five clubs will play home-and-home series in both halves of the league schedule but definite plans will be reached at a later date. Present plans would call for both the Island teams to play six games at Vancouver, with the mainland squads each playing at Nanaimo and Victoria twice. This arrangement would also hold good between the United and Nanaimo elevens, thus the United would be at home every second Saturday.

President of the loop for the coming season will be Scotty McNair, long associated with Pacific Coast soccer, while J. Seggie was named vice-president. Jock Hendry of Vancouver and Charlie Callon of this city were named as league directors. In charge of publicity will be Austin Delaney.

Announce Draw For Softball Knockout Cup Series

Knockout games in the Victoria and district softball loop for the Calvert Cup, Poodle Dog Cup, Taylor Memorial Cup will open Aug. 21, continuing for the next few weeks. Army and Navy vets and Esquimalt will get under way Thursday at upper Central in the Calvert Cup series. Eaglettes will meet J. H. E. on Thursday in the opening for the Taylor Memorial Cup at Queens and Quadra.

Following is the schedule for knockout games:

CALVERT CUP

Aug. 21 — Esquimalt Meat Market vs. Army & Navy Vets Sen. A, upper Central.

Aug. 25—Dominion Meat vs. Brentwood Aces, upper Central.

Aug. 25—Douglas Hawkes vs. Bluebird Cabs, lower Central.

Aug. 26—Douglas Tire vs. Army & Navy Vets Sen. B, upper Central.

Bye—B.C. Forest Products.

POODLE DOG CUP

Aug. 27—Bluebird Cabs vs. Douglas Tire, upper Central.

Aug. 26—Brentwood Aces vs. B.C. Forest Products, upper Central.

Aug. 28—Douglas Hawkes vs. Dominion Meat, lower Central.

Aug. 29—A.N.A.F. Vets vs. A.N.A.F. Vets, Sen. B, upper Central

Bye—Esquimalt Meat Market

TAYLOR MEMORIAL CUP

Aug. 21—Eaglettes vs. J.H.E., Queens and Quadra.

Aug. 22—Adverts vs. Spencers, Queens and Quadra.

Bye—Hudson's Bay.

All games start at 6.30

Mrs. W. S. Smith and Mrs. J. F. Dawson captured the honors in the Uplands women's par competition. Mrs. Smith won the class A honors, finishing three up and Mrs. Dawson was the class B titlist, ending with four up.

O'Neill Rumored To Succeed Cronin

BOSTON (AP)—The Boston Post says in a copyrighted article today that Steve O'Neill, manager of Detroit Tigers, will replace Joe Cronin as manager of Boston Red Sox next season.

The article continues that Cronin, who has been Red Sox manager since 1935, will be promoted to general manager succeeding Eddie Collins, who will retire because of ill-health.

Eagles Down Navy To Take Lead In Semifinal Series

Keeping up a sustained hit attack against hurler Dick Barwis in the last four innings of play, Gar Taylor's Eagles waltzed over the Navy nine, 14 to 1, to capture the second game of their best-of-three semifinal round in the Rithet Cup playoffs. First game ended in a draw. Tomorrow, at the James Bay enclosure, Legion will attempt to make it two straight over Pitzer & Nex in the other semifinal round.

Called at the end of the seventh, the game took almost two hours to complete and was hampered by the fact that a chilly wind persisted, keeping fans to a bare minimum.

Navy squad received a bad break when catcher Kubicek received a painful split down the web of his fingers in the opening stanza. Little Jeff Worrell took over the receiving chores and turned in a good job.

HURLS 3 HITTER

Stan Davies hurled the win, giving up two hits for one run in the first and setting tars down on a lone single the rest of the way. Davies' curveball was working to perfection as he took 13 on strikes.

Scoring once in the first, winners added a pair in the fourth, five in the fifth, and three in each of the last two frames. Altogether they banged out 14 bingles.

Bill Benn, who completed the regular season with a mark of only .068, led the hit parade with four for five, including a double, and driving in four runs.

Short score follows:

	R.	H.	E.
Eagles	14	14	2
Navy	1	3	8

Batteries: Davies and Sutherland; Barwis and Kubicek, Worrell (1).

JUVENILE LACROSSE

Coach Buck Thomas announced that no more juvenile lacrosse games have been scheduled for the season, and requests that Tillicum Athletics and Pollard Construction clubs turn in their equipment to him at Stevenson Park tomorrow at 7.

Sports Mirror

By PETE SALLAWAY

ANOTHER Victoria youngster is going to get his chance to make good in professional baseball. Bob Brousseau will leave this week to attend a try-out school of the famed New York Yankees in California opening Thursday and continuing for a week. The young left-handed pitcher who is being sent to the school on the recommendation of Reg. Patterson, business manager of the Victoria Athletics, will get a chance to show his stuff under the keen eyes of Joe Devine, noted Yankee scout, and Eddie Leishman, supervisor of Yankee farm clubs in the west. One can be certain they will give Brousseau every chance as promising young pitchers are the aim of all professional clubs.

DURING last week Brousseau worked out with the A's and several times threw at batting practice. Manager Ted Norbert was quite impressed by the youngster's speed ball and curve. "Of course he's awfully green but, from what I've seen, the youngster has the makings and just needs to work under a smart coach who could teach him how to pitch," Norbert said. Watching Brousseau in action one is impressed by his long arms and big hands. He has all the earmarks of developing into one of those rubber-armed southpaws who can really prove tough when their control is right.

MEMBERS of the Hudson's Bay woman's softball team are going to be awfully tired after completing the gruelling schedule drawn up for them this week. It is possible they will be playing every night right through until next Sunday with a doubleheader likely scheduled for the Sabbath against an up-island club in the island finals. It would seem those officials who drew up the schedules at the start of the season cut things a little too close. It is too much to ask any team to play so many games in so short a time. It would have been much better to have reduced the number of league engagements and left more time for the playoffs.

SIGNING of Frankie Filchock by the Hamilton Tigers has been given the approval of one of Canada's most-noted sports scribes, Elmer Ferguson of Montreal. Filchock, it will be remembered, was suspended by the National Football League of the United States for failure to report an attempted bribe. Ferguson writes: "The worst that can be said of Filchock is that he failed to report an alleged bribe . . . that he participated in such under-cover shennanigans was never proven. And in the game he played under protest, he gave a great performance." It is also worth noting that Filchock, member of the New York Giants, was voted his team's most valuable player.

Beavers Beat Salem; Solons Edge Chiefs

SALEM, Ore. (AP)—Portland Beavers, aided by tight hurling on the part of manager Jim Turner and Edson Bahr, defeated their little Western International League brothers, Salem Senators, 4 to 0, in an exhibition game here last night before 6,000 fans.

	R.	H.	E.
Portland	4	5	0
Salem	0	8	1

Batteries—Turner, Bahr (4) and Muratore; Mossor and Beard.

Sacramento (P.C.L.)	4	7	0
Wenatchee (W.I.L.)	2	7	2

Batteries—Gonzales, Smith (7) and Fitzgerald, Swedman (4); McCollum and Winter.

Tomorrow at Windsor Park, Spencers and Colts will meet in their fourth midweek cricket match of the series starting at 2.30. Colts hold a two to one edge, losing their first match last week. Spencers will attempt to square the series in tomorrow's contest.

Woop In Brilliant Stand As A's Win

Brilliant four-hit pitching by Bill Woop for eight and one-third innings, along with two slashing home runs by shortstop Johnny Cavalli and second sacker Leo Righetti swept Victoria Athletics to a 10 to 6 victory over Vancouver Capilanos at Athletic Park last night. It marked the opening of an eight-game series this week which will determine the pennant hopes of both clubs in the current red-hot Western International League race.

Up until the time he had to be rescued by reliefer Jim Arnold in the 9th when his control went sour, Woop turned in a grand exhibition. For six innings he had a no-hit game in his grasp, Bill Reese finally breaking through for a single in the seventh. Then in the eighth, after Babe Jensen's error put him in a hole, Woop gave up five walks to force in Vancouver's first two runs. He got out of the jam by taking Bob Stumpf on strikes for the third out.

In the ninth the big southpaw continued to have control trouble. After Red Tran had opened with a single, pinch-hitter Bill Brenner worked Woop for a walk. Mohr went down on strikes but Bud Hjelmaa singled and Frank Mullens followed with a triple for three runs and Woop left the game.

Arnold walked Carpenter and forced Mead to line out to left. Reese drew a life on Cavalli's bad throw to first but Arnold struck out Stumpf to end the game.

Woop, showing a beautiful curve ball and lots of speed before the late innings, took 13 on strikes. Bob Hall, ace of the Vancouver staff, was the loser, going out after six innings with a record of 10 hits for seven runs. He was replaced by Ronnie Bryant.

After threatening in the first inning the Athletics got to Hall for two runs in the second when Jensen walked and Cavalli smashed a home run into deep right field. Cavalli fell down just before reaching the plate but managed to scramble home before pitcher Hall could make a play on him.

Victoria unloaded on Hall in the fifth with five hits going for as many runs. White, Mastro, Harshman and Jensen cracked successive singles for a pair of runs. Cavalli sacrificed and Righetti cleared the bags with a line drive over the centre field fence. A double by Mastro along with singles by Harshman and Righetti and errors by Hjelmaa and Stumpf gave the Athletics their final three runs in the seventh.

RIGHETTI BATTING STAR

Righetti, with three hits in four trips and four runs batted in, was the hitting star. Cavalli picked up two for three.

Harshman pulled off the fielding play of the game in the fourth when, with the bases loaded, he took Tran's hard ground smash and tossed to second for the force and the third out.

TWO GAMES TONIGHT

Tonight the clubs play a doubleheader, starting at 7. Dick Mitchell will go for the A's in the seven-inning opener and Len Kasparovitch in the finale. Southpaw Carl Gunnarson will work the opener for Vancouver.

No other league contests were sceduled last night, but action on the W.I.L. front tonight will pit Bremerton against Tacoma, Salem at Yakima and Spokane meeting Wenatchee.

Softball Playoffs

Army, Navy and Air Force Vets, city champs, and Findlay Electrons, winners of the Colwood and District loop, are currently tied with one game each to their credit in the best-of-five lower island senior B men's softball playoffs.

Tonight at Central Park, teams will engage in the third game of the series, starting at 6.30.

Mastro Pacing Athletics With Bat; Hooper Second

Vic Mastro threw off the challenge of Johnny Hooper for second place in the Western International League batting race during the past week, maintaining his season's mark of .370, while Hooper dropped off to .361. Earl Kuper of Tacoma still paces the stickers with an average of .404.

Glen Stetter, Tacoma outfielder, and Herb Gorman, Spokane first sacker, are within hailing distance of the Athletics pair, Stetter boasting a mark of .357 and Gorman hitting a neat .355. Charlie Mead of Vancouver is sixth with .351.

Pounding out four round trippers in last week's home stand for a season's total of 35, Jack Harshman moved to within five of the league record of 40 set by Bill Barrisof of Bremerton last season. The long-ball-hitting first sacker also tops the loop in runs scored with 124 and runs batted in with 130,

Bill White connected for his 41st double, league's best in that department, and his 181st hit, another first, during the week.

Joe Blankenship with 12 wins and six loses is the top hurler of the club, with Dick Mitchell having the next best mark with 14 victories and 9 defeats.

Averages including last night's game with Vancouver Capilanos follow:

	AB.	R.	H.	RBI.	Pct.
Mastro	368	95	136	88	.370
Hooper	402	100	145	72	.361
Harshman	492	124	158	130	.321
White	565	95	181	104	.320
Jensen	509	88	158	116	.310
Patterson	441	109	120	51	.272
Norbert	48	12	13	8	.271
Anske	141	22	37	12	.262
Cavalli	405	61	104	81	.257
Righetti	420	59	105	73	.250

Walker Increases Lead In National League Bat Race

NEW YORK (AP)—Philadelphia Phillies are going nowhere in the National League pennant race but Harry Walker, in his first year with the tail-enders, is well on his way to winning the batting championship as a consolation prize.

Collecting 12 hits in 31 times at bat during the week-end ended Sunday, Walker pulled his average up three points to .347 and increased his margin over the runner-up, Augie Galan of Cincinnati, to 25 points.

Last week Walker Cooper of New York was second with .325 but the Giants' catcher faded to third on a .316 mark as Galan moved up with .322.

Fourth and sixth places were taken over by newcovers, Pete Reiser of Brooklyn and Ralph Kiner of Pittsburgh. Reiser got the necessary 250 times at bat and moved into fourth place with .315 while Kiner flashed a .310 mark. Frankie Gustine of Pittsburgh is fifth with .312.

GAINS ON MIZE

Kiner's tremendous clouting soared him into second place in the home run chase, with 35 to 36 for New York's Johnny Mize, and advanced him into a tie for second place in the runs-batted-in department with 91 to 97 for Mize. Willard Marshall of the Giants also had 91 R.B.I.S.

BOUDREAU LEADER

Despite a seven-point slump last week, manager-shortstop Lou Boudreau of Cleveland today clung to the American League batting leadership, but faced a threat from Luke Appling, 38-year-old Chicago White Sox shortstop, who was only four points behind.

Boudreau held the top with .333, while Appling, seeking his third league batting crown, surged seven points last week to a runner-up mark of .329.

Meanwhile, third sacker George Kell of Detroit, who last week shared the lead with Boudreau at .340, collected only six hits in 33 trips, to tumble 13 points to fifth spot with .327.

Tied for third place a point behind Appling with .328 were Joe DiMaggio of New York and Ted Williams of Boston.

Boston's Bobby Doerr was the only new leader in the specialized departments, wresting the runs-batted-in lead from teammate Williams with 78.

Williams, however, continued to set the pace in home runs with 25 and runs scored with 88. Pesky was tops in hits with 139, while Boudreau led in doubles with 35; Mickey Vernon of Washington was ahead in triples with 11; and Dillinger continued as the pacesetter in stolen bases with 29.

Vic Raschi of New York maintained the percentage lead in pitching with .857 on a 6-1 record, followed by his Yankee teammate Frank Shea, with 11-4. Bob Feller of Cleveland kept his strikeout lead with 149.

Ted Johnson Rides Six Mounts Into Money At Hastings

VANCOUVER (CP) — Apprentice jockey Ted Johnson continued to draw out in front of the other hardboots at the Exhibition Park meeting today, when he rode six of his eight mounts into the money.

His first pay-off horse, Ochoweista, faded in the last eighth to take show money in the second. Brilliant Help took the lead at the gate in the third to win going away, while Slateford lay in back of the pace makers in the fourth, hitting a hot stretch drive to win by a head.

His remaining mounts—Winnikiup and Ball and Chain—grabbed the show position in the fifth and seventh respectively.

Sword Dance combined with Beach Drive to return a $79.10 daily double while Royal Domino ran first to Paper Heels to pay a quinella of $21.85.

First race—Claiming; $800; three-year-olds and up; seven furlongs:

Sword Dance (Roberts)	$11.70	$6.60	$3.95
Flying Around (Stein)	----	5.40	3.30
Plucky Boss (Marsh)	----	----	4.55

Time, 1.30 1-5. Also ran: Foxy Donna, Miss Betty B., Bluffer, Sayyourself, Mischief Cord.

Second race — Allowance; $800; three-year-olds foaled in Canada; seven furlongs:

Beach Drive (Connell)	$11.10	$4.25	$2.45
Lady Ginger (Sporri)	----	3.95	2.50
Ochoweista (Johnson)	----	----	2.25

Time, 1.31 3-5. Also ran: Gals Maid, Broad Oak, Jenny's Lass, Get Tuned, Banners High.

Daily double, $79.10.

Third race—Claiming; $800; three-year-olds and up; seven furlongs:

Brilliant Help (Johnson)	$4.70	$3.15	$2.25
Rio Rose (Christensen)	----	4.45	3.60
Flying Aster (Bovine)	----	----	3.35

Time, 1.30 2-5. Also ran: Miss Jamica, Spanish Ball, McGregor, Shaganappy, Track scratch: Vegas Bum.

Fourth race — Claiming; purse $800; three-year-olds and up foaled in Canada; seven furlongs:

Slateford (Johnson)	$6.75	$3.15	$2.25
Miss Exilda (Connell)	----	3.20	2.30
Jazzing Jean (Christensen)	----	----	3.20

Time, 1.30 2-5.

Fifth race — Claiming; $800; three-year-olds and up; one mile and one-sixteenth:

Kinsall (Noffsinger)	$5.40	$3.50	$3.15
Alpine Galatea (A.Vilches)	----	4.90	3.50
Winnikiup (Johnson)	----	----	3.50

Time, 1.50 1-5. Also ran: Chic Gales, Hot Pepper, Bonaparé.

Sixth race—Claiming; $1,000; three-year-olds and up; one mile and one-sixteenth:

Cherokee King (Bovine)	$8.50	$4.00	$2.55
Gene S. (Noffsinger)	----	3.40	2.75
Bruno's Touch (Roberts)	----	----	3.65

Time, 1.48 1-5. Also ran: Displayer, Super Dauber, Gold Bay.

Seventh race—Allowance; $1,000; four-year-olds and up; one mile and one-sixteenth:

Pea Soup (Robinson)	$5.80	$3.50	$2.50
Nalod (Sporri)	----	4.80	2.50
Ball and Chain (Johnson)	----	----	2.40

Time, 1.48 3-5. Also ran: Sir Tinker, Red Fez, Speedaway.

Eighth race—Claiming; $800; three-year-olds and up; seven furlongs:

Royal Domino (Johnson)	$5.30	$3.10	$2.70
Paper Heels (Nelson)	----	6.70	4.05
Interceptress (Bovine)	----	----	3.60

Time, 1.30 1-5. Also ran: Golden Belt, Happy Vixen, Glad Answer, Iron Plunger, Uncle Ol.

Quinella, $21.85.

Burrards Square Boxla Playoffs

VANCOUVER (CP) — Vancouver Burrards fought their way back onto even footing at one game apiece in their Intercity Lacrosse League semifinal with New Westminster Salmonbellies tonight when they defeated the Redshirts 14-9. New Westminster won the first game 10-7.

Earl McDonald led the Blueshirts, tallying three goals, while Don Matheson, with two goals and a trio of assists, was runner-up. Gordie Folka led the Salmonbellies with a brace of counters and one assist.

Burrards had to come from behind a 6-4 count at the half to whip the New Westminster lads who were playing without Harry Carter, the league's leading scorer, who injured his arm at work.

Winnipeg Advance To Soccer Semifinal

WINNIPEG (CP) — Winnipeg Scottish advanced to the next round in the Dominion interprovincial soccer playoffs tonight, defeating Fort William Legion, 4 to 2, to sweep their best-of-three series in two games. They won the first game 4 to 0.

Scottish will now advance to the Canadian semifinal series against the eastern titalists, winner to meet Vancouver for the Dominion crown.

Tanforan Race Track Officials Run Afoul Of U.S. Government

SAN FRANCISCO (AP)—The United States government collected on Tanforan Race Track yesterday.

It took in $23,500 in fines, and jailed four track officials and contractors who pleaded nolo contendere (no defence) to charges of rebuilding the horse track with critical materials in violation of the War Powers Act. Previously, the track had been fined—and paid the government—$90,000 in the same case.

Surrendering to the United States marshal, after extended litigation, were Guy Standifer, president of the Tanforan Company; William Levin, secretary-treasurer of Tanforan; Earl Heple, general contractor; and Albert W. Barenwitz, track project manager.

Standifer, Levin and Heple were sentenced to three months in jail and Barnewitz to one month.

In addition to their jail sentences, fines of $7,500 each were assessed against Standifer, Levin and Heple, and $1,000 against Barnewitz.

MINOR BASEBALL

Playing at Chemainus, Peacey's Pirates of the Victoria Minor Baseball Association bantam section turned back the home squad, 3 to 2, in a thrilling exhibition match. Young Harry Gregg pitched the win for the Victoria squad in a keen hurlers' duel that took an extra frame to decide. Chemainus will play Peacey's here Sunday. Scene of the clash has not yet been decided.

Smallest Pinscher Visits Victoria With Seattle Owner

Dave Branconier of Seattle walked into the Times' news room Monday afternoon, leading what he claimed is the smallest Toy Doberman Pinscher in the whole of the United States.

Mr. Branconier announced his pinscher, a female, was two and one-half years old, weighs five pounds even, and stands seven inches high.

"I have advertised her throughout the country as the smallest one of her breed and I have never had any contradictions. I have checked with Kennel club records and I can't find any account of a pinscher as small as she is," Mr. Branconier said.

Picking up the dog and tucking it under his arm, Mr. Branconier said he had once been offered $2,500 for the pinscher by a New York businessman, but had turned the offer down. "I don't intend to sell her at any price," he said.

When asked what the dog was good for, the Seattle man quickly explained his pinscher was a show dog. Digging into his pocket, he brought forth a blue ribbon which the dog had won at a Washington state dog show. "I am not going to enter her in any more shows," Mr. Branconier stated. "Shows are places where a dog can pick up any kind of disease. I intend to keep my dog well."

Mr. Branconier then produced a picture of his dog standing beside a regulation-size Doberman Pinscher. He explained the larger variety were used as war dogs by the U.S. Army.

To prove the dog's pedigree, Mr. Branconier displayed a kennel club certificate with the dog's family tree listed. The name at the top of the certificate read: "Tudie Opopulis V. Jeep."

"Is that what you call her?" Mr. Braconier was asked.

"Well, that's her kennel name. But I just call her 'Tudie' for short."

Is Your SCIATICA As Bad As This?
"For 20 years, I suffered from Sciatica in my left hip," writes Mr. Clayton Brake, Bonne Bay, Nfld. "During attacks, my hip was stiff and sore, and in the springtime was full of sharp pains. I have had to go to the hospital three times. I have swallowed tablets and the contents of ampules. I have had injections in both hips. I hopefully tried every treatment that I would hear about—but I didn't get relief, until I heard of and tried Templeton's T-R-C's. T-R-C's proved to be just the medicine I needed to relieve my suffering."
Imagine Mr. Brake's patience during his prolonged suffering! No wonder he enthusiastically recommends T-R-C's to others who suffer from Sciatic, Rheumatic, Arthritic, Neuritic Pain and Stiffness, Lumbago, Neuralgia.
Don't suffer needlessly. Do what thousands have done—get Templeton's T-R-C's today—and enjoy quick, safe relief. 50c, $1 at druggists everywhere. T-46

'Pity The Poor Weatherman, He's Doing His Best', Says Lecturer

It is a very ticklish matter to forecast whether rain will fall from clouds or not, even for a weatherman, and William Buscomber asks you to remember that, the next time you howl that it rained when the weatherman said "clear."

Speaking to the Victoria branch of the Royal Astronomical Society of Canada in the Normal School, Monday night, Mr. Buscombe, instructor in mathematics and astronomy at the University of Saskatchewan, and currently working on a research project at the Dominion Astrophysical Observatory at Saanich, outlined just a few of the difficulties.

"Don't be too hard on the weatherman, I was one for five years," might have been the theme of Mr. Buscombe's remarks.

Rain depends on whether the cloud extends up to the ice crystal level of the atmosphere, he said, adding that the "actual energy there to push clouds up is hard to calculate."

Commenting on the west coast situation, including Victoria, Mr. Buscombe said lack of detailed reports from the northeast Pacific, that is west of the Queen Charlotte Islands, makes weather forecasting for this city somewhat difficult.

"Weather has to be thought of in three dimensions, east, north and upwards," says Mr. Buscombe, who was a civilian meteorologist with the Department of Transport at the R.C.A.F. station at Rivers, Man., for one year and at Moncton R.C.A.F. station for four years.

He told how weather tracks do not always follow the same pattern. A track could have all the earmarks of the last one, suddenly turn traitor and the weatherman is left holding his forecast.

"It's a ticklish job," comments Mr. Buscombe, who showed the film, "Flying Weather Conditions of the Warm Front," in conjunction with his talk.

Next meeting of the "Summer Evenings With the Stars" course will be presented at the Normal School next Monday. Dr. William Petrie will discuss "The Galaxies."

Condition Of Injured Man Unchanged

St. Joseph's Hospital reported today the condition of Arthur C. Cole, who suffered head injuries following collision with a truck near Langford Lake, remained unchanged since his hospitalization early Sunday morning.

The accident occurred at 2.35 Sunday morning near the Langford speedway. Cole, traveling south on the Island Highway, collided with the northbound truck driven by Leslie J. Gordon.

Buy Peaches Now, Says Wholesaler

It's peach time in Victoria, according to a local wholesaler who issued a statement today urging householders to buy peaches now if they intend to preserve any.

Carloads of peaches are arriving here every day, he said. Some days several carloads arrive. There are four varieties now available: Rochesters, cheapest variety; Veterans, Vidiettes and Valiants. These varieties make up 85 per cent of the Okanagan peach crop, the wholesaler explained. Hale and Alberta varieties will not be available in this city until September.

The Okanagan is now supplying wholesalers with good supplies of cantaloupes and apples. Bartlett pears from this region are expected Thursday.

Italian prunes now are on the market but are expected to be replaced in about two weeks' time when Okanagan prunes are available.

Celery prices are now lower than the yhave been for years, wholesalers say.

Construction Men Plan Session Here

R. G. Johnson, general manager of the Canadian Construction Association, has written Roy T. Lougheed, secretary of the Victoria Builders' Exchange, stating that nearly 100 members of the association will be in Victoria Oct. 3, 4 and 5. The Victoria Builders' Exchange will play host to the delegates while they are here.

The session which is planned for Victoria will conclude a series of conferences held in major cities across the Dominion. Purpose of the cross-country convention is to give a greater number of Canadian contractors a chance to take part in building discussions.

Albert Deschamp, association president, and A. C. Ross, vice-president, head the group of delegates who will attend all sessions.

Mine Delegation Seeks Abolition Of Mineral Tax

An eight-man delegation representing the British Columbia Mining Association today asked the provincial government to abolish the 2 per cent mineral tax which the delegation claimed represents $1,000,000 dual taxation in this province.

Introduced to the Cabinet by Minister of Mines R. C. MacDonald, the delegation claimed the mineral tax, which before the war could be considered as a prepayment for provincial income tax, now represented a double tax because no such concession is granted by the Dominion government.

The delegates estimated that abolition of the tax would save the mining industry of British Columbia $1,000,000 annually under present conditions.

Spokesman for the delegation was A. S. Baillie of Granby Consolidated mine. Other members of the committee were: C. P. Browning, Britannia mine; A. E. Jukes, Sheep Creek; H. T. James, Pioneer; Frederick Field, Caribou Gold Quartz; William Guernsey, Island Mountain, and G. A. Wallinger and F. L. Hallam, Consolidated Mining & Smelting Co.

The 2 per cent provincial mineral tax was described to the Cabinet as one of the straws which is tending to break the back of the province's mining industry.

Since the return of the Canadian dollar to par with the U.S. dollar, gold producers have received 10 per cent less for their product, the delegation pointed out. The mining industry also has to contend with shortages of labor and material and has to compete in these markets with the lumber industry which, the delegation claimed, has enjoyed a boost of four times in prices.

The delegation claimed the mining industry was already paying sufficient taxes to the provincial government through Dominion income taxes, $18,000,000 of which is turned over to the province annually as rent for provincial income and corporation taxing rights.

5th Polio Suspect In Hospital Here

Another poliomyelitis suspect has been taken into Royal Jubilee Hospital, Dr. J. H. Preston, assistant medical health officer, announced today. The latest case, if confirmed, will be the fifth for Victoria. It is a four-year-old child. The other four confirmed cases are still in hospital and progressing satisfactorily, he said.

Playgrounds Close

Registration of more than 200 children with attendance excellent throughout the six weeks of the first year of supervised playgrounds in Esquimalt, marked the venture as a success so far as the Esquimalt Parent-Teacher Association, backers of the venture, are concerned.

The supervised playgrounds closed with a basket picnic at Bullen Park, when races, softball games and other sports were played. Dick Reeves was master of ceremonies.

Reeve Bert Thomas and Dr. Henrietta Anderson addressed the gathering.

Campbell River Film Location

Campbell River will be the location for action shots when production of a picture starring British Columbia's famous tyee salmon starts Aug. 25.

Horseshoe Bay, Port Alberni and famed Brentwood will also provide scenic shots. William A. Macdonald of Ottawa will direct the film according to a Canadian Press report.

No definite information on the proposed film has yet been received by professional fishing guides at Brentwood.

New B.C. Polio Case

A new case of poliomyelitis in New Westminster, bringing the total in that mainland city to two, and the total for the whole of the province this year to 143, was reported to the provincial health department today.

Also eligible:
Duddingston (McCown) 106
*Apprentice allowance claimed.

Normal Temperatures Here As Mainland Reports Cool Night

Victorians have no cause to complain of a cool night as residents of most B.C. cities and towns have.

Reports, received this morning from the mainland, state an outbreak of cold air has moved southward during the last 24 hours, covering most sections of the province and causing thermometer mercury to drop considerably.

Officials of the Dominion Meteorological Observatory, Gonzales Hill, report the minimum temperature recorded at their station last night was 50 degrees. The minimum temperature in outlying areas was 45 degrees they say.

"These temperatures are normal for this time of year," it was stated.

Town Topics

Building permits have been issued to L. A. D'Arcy, to build a six-room house at 2 Briar Place costing $9,000; and to Miss S. Dowall to add living quarters to a retail store at 1302 Gladstone Avenue, costing $3,500.

A delegation from the Washington Cornish Association will be in Victoria on Saturday. Association officers plan to stage a concert featuring Cornish songs and dances and have extended an invitation to all Cornish people in Victoria to take part.

We're all going to read books to "improve our minds," but, also! We put it off until improvement seems useless.

4 Persons File Appeals Here

Nine grounds for appeal were listed by William Clarke and Edward Tomkins, convicted on charges of breaking and entering, unlawful possession of explosive substances and possession of housebreaking tools, in notices of appeal, filed at the Courthouse Registry here today.

They were convicted at Vancouver July 25 by Judge C. J. Lennox, sitting as a judge of summary trials.

The appellants will present their case by oral argument. They claimed the judge erred in not granting a separate trial to Clarke who was tried jointly with Tomkins and that the judge erred in permitting heresay evidence against the accused.

William A. Ramsay, convicted at Vancouver before Magistrate M. Matheson on a charge of theft and sentenced to 18 months, filed notice of appeal today. He stated in his grounds for appeal that there was no substantial evidence for a conviction.

Alfred A. and Cecilia Joncas, who carry on business under the firm name of Joncas Upholstering Company, filed notice of appeal from a judgment of Mr. Justice J. O. Wilson May 22 whereby he dismissed their action against the Harrison Hot Springs Hotel Company Limited, with costs. They have listed eight grounds for appeal and state they will ask that the judgment of Mr. Justice Wilson be set aside.

The best car insurance, like the other best things in life, is free. You just keep your mind on what you're doing.

ANSWER: About two weeks

ANSWER: About two weeks.

May Call Tenders For Technical Unit End Of September

First tenders for the school building program will probably be called by the end of September, it was learned today.

They will be for the $150,000 building to house the vocational-technical units on the Victoria High School grounds, and architects are speeding completion of these plans as the building must be well under way by March, 1949, in order to qualify for the federal government grant of 35 per cent of the cost.

There will be $43,000 worth of equipment placed in the building which will accommodate 300 students at one time, and be capable of training 500 students in classes. There are to be six shops, five lecture rooms and two drafting rooms.

Mayor's Fund Gets 300 Pounds Of Honey

A donation of between 200 and 300 pounds of honey, packed in two-pound tins has been received by the Mayor's Fund for parcels for Britain from Miss A. E. Bostock of Monte Creek, Mrs. F. E. Dowdall, chairman of the administrative committee, announced today.

A total of 1,581 parcels have been sent to Britain, she said, and another 50 will be ordered this week.

Donations to the Mayor's Fund now stand at $10,253, and this does not include the $100 cheque turned over by the City Council from the Selkirk Lumber Company, which celebrated India's independence by making the gifts.

The Women's Auxiliary of the Canadian Legion at Cowichan Station, which sent $350 to the Mayor's Fund, have written Mayor Percy George a letter of thanks for including their name in the parcels sent with the funds supplied. They state they have received many grateful letters of thanks from the recipients.

The DOCTOR Says:

CONTRACTING JAUNDICE BY TRANSFUSIONS

By WILLIAM A. O'BRIEN, M.D.

Blood bank operators are warned to weed out potential blood donors who have had jaundice or inflamation of the liver because of the possibility of their blood transmitting the virus of infectious hepatitis (contagious jaundice.)

Jaundice which follows a transfusion with human blood or plasma cannot be distinguished from jaundice caused by actual infectious hepatitis.

Hospitals are urged to exclude as blood donors all persons who have ever had jaundice or inflamation of the liver and those who in the past year have (1) been in contact with a person who had jaundice or (2) have received human blood, Plasma or a blood derivative or (3) who have been a hospital patient for any cause.

Experiments are being conducted to determine if it is possible to destroy the hepatitis virus in the blood but, to date, they have not been successful. Extracting and using various portions of the plasma instead of the whole plasma, or using whole blood instead of plasma in the treatment of shock decreases the possibility of spreading the virus.

MAY EXAMINE LIVER

Another possible way of limiting the spread of infectious jaundice is to examine prospective blood donors for enlargement or tenderness of the liver, enlargement of the spleen, or jaundice. At the present time, blood donors are searched mainly for malaria and venereal disease, and the blood is also tested for Rh factor and special type.

Injections have been administered to recipients of blood and plasma transfusions, and the donor's blood or plasma has been exposed to ultraviolet light as a means of preventing contagious jaundice, both without success.

Contagious (serum) jaundice is a comparatively mild disease, although it may be serious, and the possibility of contracting it through a blood or plasma transfusion should not prevent anyone from receiving a needed transfusion.

The rich man can enter the Kingdom. The hard part is to care about the future when he has everything he desires now.

Modern version: The evil that men do lives after them; the good is oft interred by the other political party.

5-Day Week, Cost Of Living Boost Wish Of Civil Servants

Provincial government employees throughout British Columbia today are awaiting provincial cabinet action on representations made Monday by the B.C. Provincial Government Employees' Association for a five-day week for office staffs, boost in the cost-of-living bonus paid civil servants and voluntary check-off of association dues.

The representations were made by E. P. O'Connor, Vancouver, provincial association general secretary, and H. A. Carney, secretary of the Victoria branch of the association, who conferred with Premier John Hart and Provincial Secretary George S. Pearson.

No information was available from the government on its position, but the association officials reported they had received a good hearing. It is expected the association's requests will go before the provincial cabinet shortly.

Adoption of the association's five-day week proposal would close down the Parliament Buildings here and other provincial government offices here and elsewhere in the province except for skeleton and maintenance staffs on Saturdays.

Provincial civil servants in Victoria some time ago had voted 96 per cent in favor of working a 38¼-hour week instead of the present 37½-hour week to secure the Saturday holiday. They would start earlier in the mornings and cut down their present lunch hours.

The association asked the provincial government to bring its payments of cost-of-living bonuses to provincial employees in line with the Dominion Bureau of Statistics' indices of present living costs.

The ministers were told that the present cost-of-living bonus was based on an indice of 124.1, while the Dominion government's indice now stood at 134.9. At the present time, the association claims, the civil servants are receiving no bonus for the 10.8 rise in the cost of living since the bonus was last adjusted.

The association also asked the government to invoke the check-off provisions of the provincial Industrial Conciliation and Arbitration Act, 1947, by making arrangements for taking from wages association dues when a voluntary assignment is made by civil servants.

CERRO DE PASCO IS HIGHEST MINING CITY IN WORLD

An old story tells how silver was found at Cerro de Pasco in Peru. Here is how it goes:

"In the year 1630 an Indian shepherd was camping for the night at a certain spot. While his llamas and sheep were resting, he built a bonfire and cooked his evening meal.

"Next morning the Indian looked at the place where his bonfire had been, and saw some shining objects. These were bits of silver which had melted in the ore over which the fire had burned.

"The Indian told others about what he had found, and soon some Spaniards visited the place to see whether the rock contained enough silver to make mining worthwhile. Very soon they learned how rich the ore was, and set Indians to work taking it out."

Since the ore was discovered, the mines at Cerro de Pasco have proved of great value. It is estimated that they have produced more than 20,000,000 pounds of silver.

Cerro de Pasco is today a small city, the home of 15,000 people. It is the highest mining city in the world, being well over two and a half miles above sea level.

The mines still produce some silver, also a little gold, but they are far more important today for another reason. They provide vast amounts of copper.

The shafts of the copper mines go down several hundred feet, and there are about 50 miles of tunnels. Drilling and blasting are carried on inside the the mines, and the ore is loosened and taken out to be smelted nearby.

The ore has produced as much as 800 pounds of copper to the ton, but this has been rare. The average has been about 200 pounds of copper to a ton of ore. The average is very good since much of the world's copper ore produces 40 pounds, or less, to the ton.

Cerro de Pasco might be called a "rainbow town," since it has houses of many colors. Red, yellow, white, blue and green are among the colors used on the one story adobe homes of the Indian natives:

Life in this mountain city is different than in most places. White men who go there find that they become short of breath if they run 30 yards within the first few weeks after they go there to live. This is due to the fact that the air is "thin," with little oxygen.

WANTED — HOUSE FOR WINTER months, Cordova Bay preferred; careful tenants; references. Colquitz 161X. x

Dear Mr. Humber,
It was nice to meet U all again in last Sunday's Colonist, but WHY (just W-H-Y???) don't U have a new photo taken . . . I'm sure you felt no pain when THAT was taken. Had you been on a party??? you don't look nearly that bad at the store. Anyhoo . . . you have given us so much pleasure with your verses, that when I read the enclosed pome, it somehow reminded me of yours. Hope you enjoy reading it, as much as I did. Hope you get a new photo taken. That other brother of yours is kinda cute.
Sincerly yours,
Miss J.C. R.R.2
Victoria, B.C.

Dear Miss J.C. Thanks so much for your letter & "pome." I guess I'd better go see that photographer again, as you arn't the only one who thot I looked like an escaped convict. But I dunno, if it will do much good, as the last time, the man sed . . . "there . . . that's the best I can do . . . after all, I gotta have SOMETHING to work with . . . the nastiest crack of all, was from a fellow who phoned, and sed, "where you getting the dope??" Between you and I, it is very unlikely that you will see our pictures in the paper again, as we've all taken quite a pasting . . . You see, I sneaked that Ad. in, without my brothers knowing about it (they don't like having their pictures in the Paper, (much more shy and retiring than me) but I always think everyone looks at a pitcher, no matter HOW funny the people are, and so they have good advertising value . . . and after all, that's all I was trying to do . . . just advertise this joint . . . anyhoo . . . let's get to the pome and grandma.

This is the tale of my grandma, a lady of pleasant renown, who did all her chores, both in & outdoors, in a calico floor-length gown. She carried her water in from the creek, & packed in the wood that she burned, & her homemade bread was always spread, with the butter she thriftily churned. I don't know just how grandma did it, I've pondered the question a lot. For now U & I with our gadget supply, have scarcely the time for a thot. The things that we own, take ferinstance the phone, seem to clutter our lives up no end. And the Jonsese of course, are of worry a source, with their urging to get & to spend. I wouldn't like living like Grandma, too hard on the back & the feet. But somehow, way back, we've gone off the track, and our purpose served to defeat. In a home all stream-lined (many by Humber's) it is plain we don't find, the answers to all our desires, and Grandma was rich, in some qualities which, a life of full living requires.
—Isa Grindlay Jackson.

HUMBER BROS. furniture
in the heaney warehouse . . . walk down View St. . . . below Gov't, St. Opp. The Court House.

Grandma would have loved one of these davenports, especially when "company came"—with walnut-fronted arms. Only $69.00. No centre-ridge. Green or wine.

Home Building

BUILDING SUPPLIES

HOME BUILDERS BARGAINS

ASPHALT SHINGLES. A special purchase enables us to offer you 210 lbs. Black Square Butt Roofing Asphalt Shingles. These are a very nice black and will give a lifetime of service without repainting or fading. Easy to apply, lower insurance rates, for new roofs or over your present cedar shingles. Price per square (100 sq. ft.) $10.95. Large head roofing nails available with each purchase.

CEDAR GRAIN SIDEWALL SHAKES. Johns-Manville quality products, has the beauty of wood with graining in the natural, yet the endurance of stone. Fireproof, permanent color, no painting or upkeep for a lifetime. Color Dover white only. Face nails included per square of 13-inch exposure (100 sq. ft.)...$15.10

INSULATED BRICK SIDING. A veritable fortress against wind and weather, appearance of real red brick but with insulation equal to 6 inches of solid brick. Easy and quick to apply, no painting or upkeep
Per carton of 48 sq. feet...$8.25
Corner pieces, per lineal foot...48c
Soldier course, per lineal foot...21c

ACE TEX SHINGLE VARNISH. A mixture of tar and creosote, fills cracks in old wood shingles, waterproof, penetrating and preserving, dries to a glossy black finish, nothing to touch it as an economical shingle dressing.
1 gallon cans, per gallon...$1.13
5 gallon cans, per gallon...87c

PLASTISEAL. A liquid roof cement that contains asbestos fibres, brush it on cold from the can, renews old roofings.
1 gallon, per gallon...$1.59
5 gallons, per gallon...$1.39

Pure Linseed Oil Shingle Stain. 5 gallon cans, bright red, per gallon, $2.65. Bright green, per gallon...$2.90

See us for the selection in builders hardware, wallboards, drain tile, asbestos boards, paints, fence posts, etc.

Hitler's Physician Guilty Of Trying Tests On Prisoners

NUERNBERG (AP) — A U.S. war crimes tribunal today convicted Dr. Karl Brandt, Adolf Hitler's personal physician, of "full responsibility" in the performance of Nazi medical experiments on concentration camp victims.

The four-man court found the 43-year-old S.S. (Elite Guard) general guilty of crimes against humanity as charged by the prosecution, which had accused him of killing hundreds of thousands of human guinea pigs in "worthless" experiments.

Brandt was one of 23 co-defendants who made up the S.S. medical corps. His fate and that of his fellow defendants was contained in a 300-page judgment. Sentences will be passed Thursday.

Brandt stared coldly at the four judges as he heard himself and his fellow defendants denounced in scathing terms in the judgment. The room where the proceedings were held was the one where Hermann Goering, Joachim von Ribbentrop and other top Nazis were condemned to death by the International Military Tribunal.

Also convicted with Brandt were Siegfried Handloser, medical inspector of the German army, and Oskar Schroeder, chief of the Luftwaffe's medical service, both of whom were charged with war crimes and crimes against humanity.

Victoria Cadet Wins Provincial Honors

Cadet WO. Larry Crawford of the Greater Victoria Air Cadet Squadron has been selected as top air cadet in British Columba and has been awarded the flying training plaque of the Air Cadet League of Canada.

Crawford, who has completed his first year at Victoria College, was selected from 17 cadets who have just completed a month-long flying course. He took instruction with four other Victoria cadets at the Patricia Bay air station. The course was given by the Victoria Flying Club under the joint sponsorship of the R.C.A.F. and the Air Cadet League. Cadets from other parts of the province were given instruction at the R.C.A.F. station at Sea Island.

Following completion of the course, the cadets were tested by an R.C.A.F. officer, who picked Crawford for the efficiency award.

Two Times carriers, David Routley and William Taylor, also took the flying course at Pat Bay.

Victorian Wins Award

LONDON, Ont. (CP)—Awarding of six scholarships by the Music Teachers' College at the University of Western Ontario was announced today. Their minimum value is one year's tuition. The Forristal-Weldon Scholarship, open to any Canadian, was won by Rita Nevard of Victoria, B.C.

Trapper's Body Found At Foot Of Rapids

TIMMINS, Ont. (CP) — The body of a 32-year-old Saskatchewan trapper, William Qzirny, has been found at the foot of rapids in the Groundhog River southwest of Kapuskasing, Ont., police reported today, ending a trapping expediton that began last month. First indication of a mishap came Aug. 11 when the trapper's canoe, a pack sack and an axe were found.

The body was found by two employees of the Spruce Falls Power and Paper Company while they were walking to a bush camp.

Kingston Convict Complains Of Food

WINDSOR, Ont. (CP) — The Windsor Daily Star said today in a newspage story that it had received a letter from a Windsor convict complaining that conditions in the Kingston penitentiary are "contrary to the interest of humanity."

The Star did not identify the convict, but the letter was received a few hours after the Toronto Globe and Mail had disclosed that Donald (Mickey) McDonald, one of the three long-term prisoners who escaped Monday, had written a similar letter.

Prison food is the writer's main complaint.

"The meals now are more meagre, unappetizing and monontous than they have been in the past decade," the letter continued.

The Star quoted the letter writer as saying that "slightly less than one-third of the poundage of the daily meat ration for over 700 prisoners is used by the officers, and they only eat one meal in the prison."

Says Signals From Micmac Stopped

HALIFAX (CP) — The fog signals of the destroyer Micmac was stopped by orders of the captain less than half an hour before collision with the freighter Yarmouth County Aug. 16, when 11 navy men were killed, AB. William Edward Degan, a telegrapher, said today.

Degan told Mr. Justice W. F. Carroll, presiding at the accident inquiry, that he had been on the bridge blowing the destroyer's siren until 12.35, when the captain ordered him to stop.

At 12.53, according to another witness, the two ships collided.

3 Doukhobors Sent Up For Arson Trial

NELSON, B.C. (CP)—Three Doukhobors, Mike Bayoff, George Barisoff and Tina Rosenoff, were committed for trial Monday night by Stipendiary Magistrate William Irvine here on charges of unlawfully and wilfully setting fire to a house.

John Lebenoff told the court how on Aug. 9 his home at Krestova, Doukhobor community, was destroyed after Bayoff and Barisoff had threatened to burn his house. He described a march by about 75 persons on his home after a police officer was called, and how about 10 entered the house and a fire was set.

Tina Rosenoff was among the first to enter the house, "carrying a small parcel about the size of a beer bottle," he said.

The trio will elect for trial probably at the next county court sitting here.

Tanforan Race Track Chiefs Go To Prison

SAN FRANCISCO (AP)—The four men sentenced in the Tanforan race track reconversion case left for jail Monday.

A. W. Barnewitz, project superintendent, will serve 30 days in the Solano County jail at Fairfield. He also was fined $1,000.

Guy Standifer, Tanforan superintendent; William J. Levin, treasurer-general manager, and Earl W. Heple, general contractor, asked permission to serve their three-month sentences in the San Mateo County jail. Each also were fined $7,500.

The four were sentenced and fined in federal court here on grounds they made illegal use of critical materials to rebuild the race track after its occupancy by the U.S. navy during the war.

7 Toronto Suspects Held In $100,000 Theft; Refused Bail

TORONTO (CP) — Police opposed bail for seven Toronto men, rounded up in a city-wide sweep following the $100,000 robbery of safety deposit boxes in a branch bank here last week-end, when they were remanded for one week in magistrate's court today.

Thieves smashed through a brick wall at the side of the vault in the Dundas and Chestnut Street branch of the Royal Bank of Canada, and the seven men were arrested Monday afternoon and evening. Six of the men face vagrancy charges and the seventh is charged with possession of an unregistered revolver as well as vagrancy.

Police refused to comment on the possibility the men are believed to be members of the "numbers" gang responsible for the $250,000 safety deposit box robbery at the Bathurst and College Street branch of the same bank April 24 last.

Crowbars and sledge hammers used at the week-end were wiped clean of fingerprints and left in the second-hand store through which the thieves broke into the vault. Meanwhile police continued to comb warhouses and disused buildings throughout the downtown area for the cash, bonds and securities stripped from the boxes.

Burmese Assassins Attack Minister

RANGOON (Reuter)—Gunmen made what was officially described as "a likely attempt on the life" of U Tin Tut, finance minister of the Burma government and until recently high commissioner in London, in one of a series of incidents reported today following the arrest of 200 members of the "Patriotic Burmese Forces."

With almost all opposition leaders and partizans under arrest, official quarters were mystified by nightly shootings which have disturbed Rangoon's curfew hours ever since U Saung San and six other government leaders were assassinated nearly a month ago.

The latest wave of hit-and-run attacks did not cause any casualties, according to reports, but left police with no clue to the perpetrators of the spreading epidemic of political crime.

Other incidents included one described by residents as a "hellish half-hour gun battle" in the dead of night near the People's Volunteer Corps headquarters, scene of almost nightly shootings.

Recommend Lawyers For Court Post

Patrick J. Sinnott and J. Alan Baker have been recommended by the City Council for the post of deputy police magistrate at Monday's council meeting. Their names were put forward by the police commission and the appointment must be made by the Attorney-General.

The council also endorsed the police commission recommendation that W. L. Osler, police court clerk, be made a justice of the peace.

Cargo Of Sunken Ship Still Good

SEATTLE (AP)—Inquiry into the sinking of the Alaska motorship Diamond Knot in the Strait of Juan de Fuca last Wednesday was continuing by a Coast Guard investigating board in Portland today to determine whether any charges are to be lodged.

A preliminary investigation was completed here Monday afternoon. The Coast Guard gave no reason for shifting the hearing to Portland.

The Diamond Knot, carrying a $3,500,000 cargo of canned salmon, sank after a collision with the intercoastal freighter Fenn Victory in a pre-dawn fog.

Divers continued a survey today to determine if the cargo can be salvaged. Samples brought up from the wreckage indicated the salmon still is in perfect condition.

New Commodore

The Cunard White Star Line today announced the appointment of Capt. Cyril Gordon Illingworth as commodore of the White Star fleet to succeed Sir James Bissett who retired from active service July 31.

Capt. Illingworth, senior captain of the company's service, is now in command of the Ss. Queen Mary which returned to trans-Atlantic service July 31.

Commodore Bissett made his last voyage from New York Dec. 31, 1946, as master of the Queen Elizabeth.

To Meet In Edmonton

EDMONTON (CP) — Alfred Peart, president of the Civil Service Association of Alberta, announced today the annual meeting of the Inter-provincial Council of Provincial Civil Service Associations for the four western provinces and Ontario will be held here Sept. 18-19.

Bets Half-Million

LOS ANGELES (AP)—Glenn H. McCarthy, Houston oil man who has entered a "souped-up" P-38 in the Aug. 30 Los Angeles-Cleveland Bendix race, offered Monday to put up $500,000 that his plane will win. Paul Mantz, Los Angeles, 1946 Bendix winner, countered at once with an offer of $100,000 "or the equivalent in airplanes."

Barracuda Comes North

COOS BAY, Ore. (AP) — A five-foot-long, 40-pound barracuda, rare in northern waters, was reported taken here by Fred McCollough while working on the beach tending rowboats. McCollough reported he saw the barracuda swimming in shallow water and stunned the fish with an oar. Teeth in the specimen measured 2½ inches long.

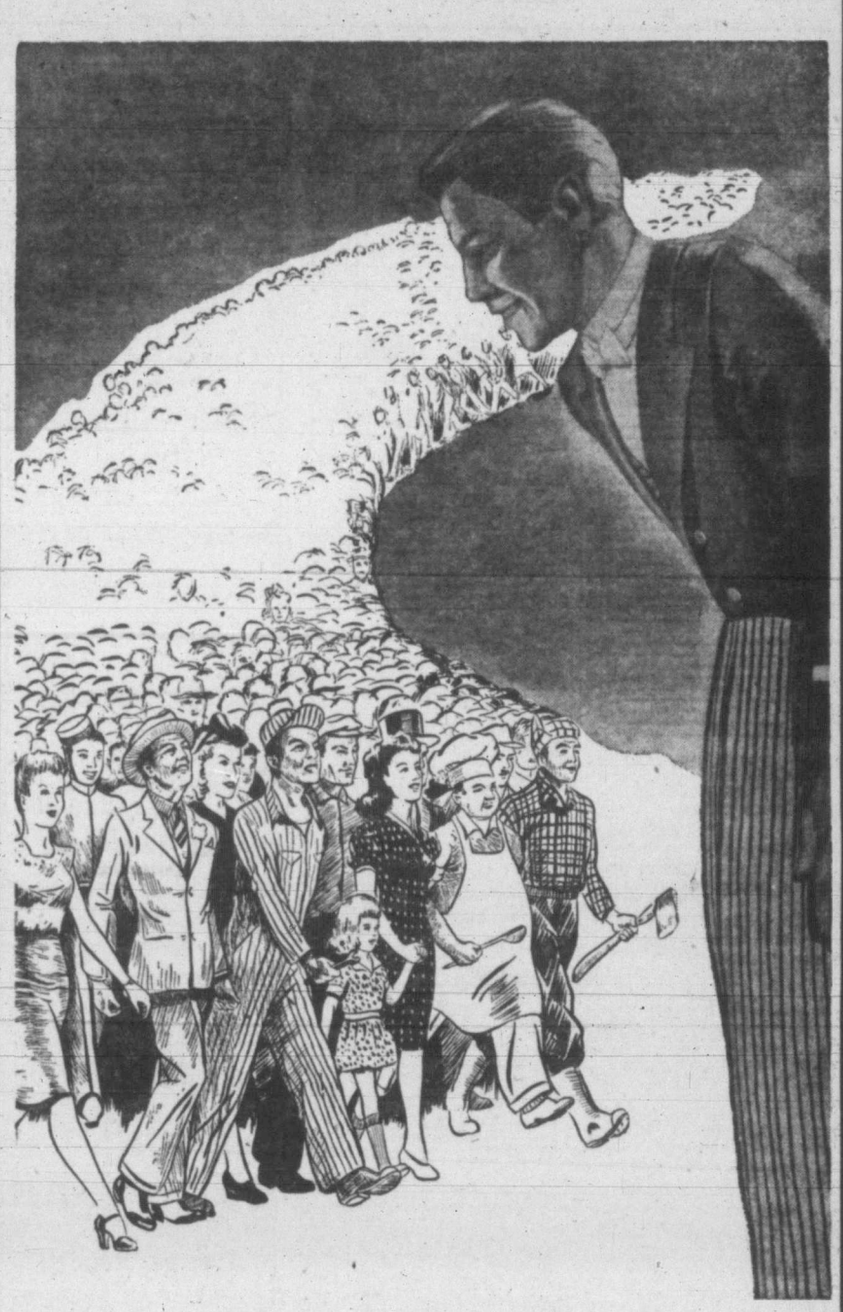
Vancouver Council Argues Over Dogs

VANCOUVER (CP) — A clash between dog lovers and people who think dogs at large are a nuisance in a big city took place at the City Hall here Monday as aldermen discussed proposals to make it illegal for a dog to be on the street without a leash.

"I think it is time our dog catchers got busy," Alderman R. K. Gervin said. "For the sake of the dogs themselves—if not for considerations — we should enforce our by-laws."

The recommendation was referred back to a special committee.

Saanich firemen quelled a blaze which threatened to destroy the one-story home of R. C. Carlson, 3073 Albina Street, early today. The fire was confined to the attic and the roof of the dwelling.



The Ads With Only One Mission—To Serve You

We who live today, in the greatest Ad-age of all time, hear again and again the adage of the times, "It pays to advertise." And we know it pays. We see the evidence that it pays on every billboard and neon sign, in every magazine and radio commercial. But such advertising, with its clever copy-writing and fancy art work, costs too much for the individual to pay.

But there are Ads whose only purpose is to fill YOUR needs, their one mission—to serve YOU.

They are Times Want Ads. They have no costly illustrations, and need none. Nor do they need to rely on catch-phrase copy to attract readers. They are short, simple, inexpensive messages thousands look to every day for fulfilment of every need under the sun. Through them want-satisfaction is quick and sure, because they introduce buyer to seller, renter to tenant, worker to employer, and loser to finder.

Whatever need you may have—Money, Help, Housing, Job, or anything else—the easy way to fill it is the way thousands of Victorians have for over 60 years . . . . entrust your mission to a Times Want Ad.

Leaders Give As Market Slows

NEW YORK (AP)—Stock market leaders continued to give ground moderately today although dealings were among the slowest of the year and weakness a rarity.

The ticker tape inclined to doze from the start but quotations wavered in most groups as bullish news inspiration was lacking. While scattered plus signs persisted for pivotals near the close, declines of fractions to a point or so predominated.

Canadian issues were weak at midday with McIntyre off ¼ and Canadian Pacific ⅛, while Hiram Walker and Distillers Seagram were unchanged.

Canadian curb issues were quiet.

Dow Jones closing averages:

30 industrials	**179.75, off 0.69**
20 rails	**49.15, off 0.15**
15 utilities	**35.61, off 0.01**
65 stocks	**64.45, off 0.20**

Total sales, 600,000.

IT'S QUICK ON THE UPTAKE—Queer-looking aircraft above is the new XL-15, all-metal liaison plane shown in steep angle climb during tests for Army Air Forces at the Boeing plant, Wichita, Kan. It is designed for work with ground forces for observation, communication and photography.

Golds Hold Most Of Trading

TORONTO (CP)—Trading on the Toronto Stock Exchange today outstripped yesterday's brisk session, the golds holding most of the trading.

Industrials moved fractionally in little activity, with losses outnumbering gains. Famous Players gained ⅝ on an increased dividend announcement, after selling off fractionally earlier.

Western oils were generally off while base betals strengthened. Eldona, the gold feature of the last two days, sold up about 9 and 10 with well over 500,000 shares traded.

Heavier gold traders showing gains included Discovery, Donalda, Duvuy, Goldvue, Osisko and Pen-Rey. Aquarius was up 7 in fair volume.

Toronto closing index:

20 industrials	**170.34, off 0.17**
20 golds	**113.04, up 0.23**
10 base metals	**82.47, up 0.21**
15 western oils	**27.23, off 0.44**

Total sales, 1,490,000.

London Market

LONDON (Reuter)—After a dull opening, strong buying appeared in South African issues on the London stock market today. Selling marked domestic issues, but losses were neither heavy nor widespread.

Dividend-paying set the pace among South African issues while copper shares showed minor gains in the quiet mining group. Oils were dull.

Foreign bonds and rails were quiet, but commodities registered slight gains.

U.S. Ships To Visit

Two U.S. destroyers, Loftberg and John W. Thomason, will arrive in Victoria Aug. 21, R.C.N. officials reported today.

Aboard the two vessels will be reservists from the 13th Naval District, Seattle.

NOT DINING, JUST DANCING—Live snakes heighten reality of the Indian ceremonials performed by the Smoki people of Prescott, Ariz. The Smoki are businessmen of town who don war paint and respond to the rhythmic beat of tom-toms once each year in order to perpetuate Arizona's rich Indian lore.

Ontario Back In Service, Taking Trials Wednesday

The Canadian cruiser Ontario will sail at 9 Wednesday morning for compass and speed trials as she goes through the final phases of her return to active service with the Royal Canadian Navy, it was announced by R.C.N. officials here today.

On Thursday morning the Ontario will take further speed trials and then proceed to Nanoose Bay, remaining there until Sept. 2. She will take her deep-sea trials Sept. 2.

The Ontario, commanded by Capt. J. C. Hibbard, D.S.C., R.C.N. of Victoria, is replacing the cruiser Uganda, now decommissioned and in the reserve fleet.

First arrivng here Nov. 27, 1945, with repatriates from Hongkong, the Ontario has been in reserve since being based at Esquimalt, but has never been decommissioned.

She has had a major refit here. Her engines have been overhauled, her armament improved, her navigational facilites extended and all her cabins and messes have been completely renovated.

She is classed as one of the most modern cruisers in the British Empire, with much of her equipment still on the secret list. She is now carrying her peacetime complement of 600 men, as it is expected to soon begin her new duties as a training ship.

Work On Ship Here Nearly Completed

The Seaboard Crane, which has been at Yarrows Ltd. since July 31 undergoing a refit with new crew accommodation, is now nearly ready to said and will be at Ogden Point Saturday to load railroad ties for China, it was reported today by Ken Briggs of King Bros. Ltd., shipping agents.

Officials of the Seaboard Shipping Co., Ltd., owners of the vessel, will come from Vancouver to attend a dinner aboard the ship Wednesday.

Another Seaboard ship, the Seaboard Enterprise, is due Thursday from the mainland to load 1,175,000 feet of lumber for the United Kingdom.

A third ship, the Seaboard Star, is due here Aug. 27 to load lumber, also for the U.K.

On Sept. 3 the Lake Nipigon is scheduled to drydock here for annual overhaul.

New C.P.R. Ship To Enter Service

The 10,000-ton cargo liner Beavercove, which will complete the Canadian Pacific's Beaver fleet of fast cargo vessels, is now undergoing acceptance trials at Glasgow and has made a speed of 18.58 knots over the measured mile, according to word received here from Canadian Pacific Steamships.

The Beavercove is scheduled to sail from London on her maiden voyage to Montreal Sept. 3, joining her sister ships Beaverdell, Beaverglen and Beaverlake, all of which made their first voyages last year.

Completing the Beaver fleet are two former Empire ships purchased from the British government, the Beaverford and Beaverburn. These two cargo-passenger ships have been sailing to and from Montreal since last year.

One Woman's Day

By NANCY HODGES

EUROPEAN ELEGY

IT WAS MY GOOD FORTUNE to have a chat the other day with a Victoria girl who recently returned from Europe and who, by the time this appears in print, will be on her way back there.

And in the half hour we spent together she gave me a close-up picture of some of its tragic peoples—as seen by a sympathetic eye-witness.

Miss "Joey" Trew has been working in Geneva since the summer of last year, with the World Council of Churches. And her duties took her to Oslo, Norway, in July of this year.

Where she took part with about 1,500 other delegates between the ages of 18 and 30, representing 71 countries, in the World Conference of Christian Youth.

NORWAY FORTUNATE

SHE FOUND OSLO SHABBY, but remarkably free from the appalling destruction which the war caused in many another European capital.

The food situation impressed her with its plenty—particularly as compared with Alsace, France, where she had been staying at the time of the bread crisis in May.

As she hastened to explain, it may have been the generous hospitality of the Norwegians to the delegates, but during her stay in Oslo she saw such things as butter and eggs in lavish quantities. Both are almost non-existent in other parts of Europe and in Britain.

En route from Geneva to the conference, Miss Trew passed through Germany and found it a depressing journey.

CHILD BEGGARS

HAMBURG AND HANOVER, particularly, had suffered so much from the constant bombardment that they were just rubble. And the people looked utterly hopeless and depressed.

At every German stop, the train was besieged by children begging for food and especially cigarettes—which are coin of the realm in the black market.

Sixteen Germans—but none from the Russian zone—incidentally—had been given permission to attend the Oslo conference, and Miss Trew found their attitude interesting.

"All of them carry chips on their shoulder, and are resentful at the outcome of the war. Few showed any sign of repentance."

GERMANY VS. BRITAIN

But they seemed to find grim consolation in learning from the British delegates that conditions in Great Britain were pretty grim—and likely to be worse.

One young German expressed astonishment and revealed: "Oh! We thought our conquerors had been living on the fat of the land all this time," a view in which most of them concurred.

No doubt, the well-laden tables in Oslo enhanced the German impression of well-being among the Allied countries.

But when Miss Trew flew to Britain immediately after the conference, the difference struck her with a shock. For she found the Britons far worse off for food and the sheer necessities of life than the Scandinavians.

So much so that when, while flying over Ireland en route to Canada, she was proffered bacon and eggs she couldn't take it.

SWISS AND D.P.'s

HER WORK in Geneva brings Miss Trew in contact with a great many of those tragic "pariahs" of the war—displaced persons.

While Switzerland admits many, it will not allow them to work in anything but internationally-organized associations—such as the U.N.O., Y.W.C.A., Red Cross.

Incidentally, no foreigner—whether a D.P. or not, has any chance of getting a job with a Swiss concern, unless possessed of very special skills. In which case, the firm can only hire them after obtaining a special permit from the government.

It makes one wonder again how these tragic D.P.'s manage to survive without jobs, money—or hope.

And it reminds us again that, whether we like it or not, we cannot ignore the problem of this great army of hapless people without a country.

For unless the more fortunate countries of the world open up their doors a little wider, their plight may eventually lead to another war which would literally bring the world tumbling about our own ears.
